The Mountainview Bull Sale has become one of Alberta's best "one-stop" bull shopping events. Not only is there a high quality front end, but deep consistency with some volume to accommodate all budgets.

The Charolais side of things will again be headlined by the excellent Gerrard Cattle Co. group who set a Charolais breed record last year selling a bull for \$75,000! This group will again feature the great donor cows from the Gerrard program as their dams. Diversifying and complementing the Charolais sale will be the powerful group of two year old bulls from Foat Valley Charolais. This set of bulls have been specifically held to sell as "2's" and have been developed accordingly. They are very sound footed and pack a lot of performance.

The Simmental portion last year saw high sellers come out of a very impressive Outlaw Cattle Co. pen who again will have a strong group. The big strings of Simmis will be from Tymarc and Hannah who both have large sire groups sired by their respective bull batteries. Adding quality to the Simmental sale will be bulls from C Bar K, GSB and Bar CL who all have more good bulls to add to their string size.

The "British Breed" sector will again have bulls from Cutbank Cattle Co. and Redline Livestock who will both bring more bulls with a continued commitment to the sale. Last year was somewhat of a "trial and error" situation that worked so well that both programs will increase their numbers of both Red Angus and Polled Hereford bulls. We will welcome this year two new consignors to our "British" segment, Chestermere Polled Herefords of Didsbury and Sunberry Valley Ranch of Sundre with their Red Angus bulls.

Let us know if we can be of assistance with your bull purchasing requirements.

See you in Innisfail,

Jay Good

- Our only T-Bone bull in the sale this year and he certainly holds his own.
- Dam is by Top Gun, and is a good footed, good uddered cow that has been a "no problem" type of producer for us.
- A bull that will work in most any program.

My black bull, Kade's Power Hitter, I purchased from the Remington's Dispersal sale in 2011, and his offspring are well put together, long, thick and have depth. At the end of the day, when you are selling your calves at the market, this adds up to pounds!

Now to the red production: There is Red Wing, that I purchased from Jim Smith a couple years ago. This bull throws long deep, thick, red calves. And the other red bull I use in my program is Accelerator, that I purchased from Double Bar D as well. This bull is a little smaller framed but still will throw you an easy calving, well put together calf. And he will surprise you time and time again. I have used the Crosby bull semen in my AI program for the first time last year. Last but not least, there are two Sure Bet sired bulls to offer you. 10A is a black bull out of a bred heifer I purchased from Sunny Valley that was bred to Sure Bet.

AC/DC 4A -- he is my little buddy. I started halter-breaking him early this fall to get him ready for the show string. He went from Brandon, MB to Edmonton Farmfair and then to the Camrose Bull Congress. AC/DC 4A's dam was a heifer I bought from Double Bar D who has the same pedigree as True Grit, going back to the great cow Wheatland Lady 822U that Double Bar D owns to this day, and her sire is TNT Tanker U 263. 4A has a great background and an outstanding personality. I'm sad to see him go, but I'll be happy once he starts doing his job and finds a new home.

Semen interests:

Hannah Simmentals reserves the right to draw semen on any bull in our offering. Semen to be drawn at the seller's expense and at the buyer's convenience and will be used for in-herd used only.

The sires that I've used on the farm are:

True Grit, in which I was fortunate enough to purchase a half interest at the Double Bar D Bull Sale in 2012, for a whopping \$21,000. Yes at the time, I was nervous of making such a large investment, but once I finally got to see him it was well worth it. As you can tell by these bull calves that he has sired, they are complete, well put together offspring. Time after time he still throws these monster bulls with low birth weights and very feminine heifer calves. My first heifer calf I raised from True Grit was sold at the National Trust sale in Brandon, MB to Jimmy Joe Henderson. I was sad to see her go but she will be a great addition to Jimmy's program.

Here is a real eye catching black bull sired by the well-known Sure Bet and out of the great cow, Lady Monique 194Y, that I bought at the Double Bar D sale in 2012 for \$21,000 out of their Wheatland Lady 822U. And it's looking like she will produce like her mother. I took him on the show road last fall with his mother and they looked awesome. He is smooth, thick topped and long. He has great eye appeal and will be a great herd sire. If you haven't seen this boy yet, take a long look, he just keeps on getting better.

WHS 5A

15 January 2013

A black bull that is very strong. Long, wide topped, thick butted, well haired and sharp to look at. 5A is sired by Kade who proves his quality by his strong background coming from Remington's dispersal. He goes back to Star Power and Remington On Target. 5A's dam is another strong cow from LaBatte Simmentals, IPU 38U, featuring Lewis blood, LFE Mark Enforcer and also LFE Bring Down The House and a Pizzey cow, CDP Midnight Frenzy 434S, some more proven working bloodlines. 5A's background looks as good as he does.

WHS 25A

16 February 2013

A black bull with a white star on his face which really sets off his thick, black hair. 25A is very flashy being smooth, long and deep. Another good bull out of the Kade bull purchased at Remington's dispersal. Kade goes back to Star Power and Remington On Target. He has proven to us to be a top notch herd sire. His dam is Lake Bottom 2X, which I purchased at the Red & Black sale in Red Deer and she has a strong background as well with the CMS Reba cow and Red Label and Power Drive on her top featuring another genetic powerhouse. 25A will catch your eye when looking through the pens.

We run a small mixed farming operation about 30 miles northeast of Calgary. Our herd is presently 65 - 70 purebred cows. Garry has been an active CSA member since 1976. Bulls are marketed privately and through this sale, while heifers are sold through the Red & Black in Red Deer. Both girls were active in the YCS until they turned 25, and remain involved in the operation. Welcome to the 2014 edition!

Here is a dark red, blaze face calf with lots of performance. We have used Twin-Chief Terminator for 7 years. He has given us no calving problems and leaves progeny with lots of muscling, performance and a quiet temperament, as this calf demonstrates. Our bigger cows will occasionally throw a little larger birth weight - but nothing the cow can't handle herself in a timely manner. We have a very productive and strong cow family here - 8N's daughter, GSB 28Y, also has a bull in the sale, Lot 47.

30A is a blaze faced son from Terminator, but from a black momma cow. Jennifer purchased 538R from Russell Sevcik at Hussar. She has been a solid producer and her daughter, 4U, also has a son in the sale, GSB 14A, Lot 49. Another productive and strong cow family.

Linus Clark
RR 1, Sundre, AB T0M 1X0
Ph: 403 638-9608
email: lclark@briscowood.com

I, along with my partner, Shari, and my two young daughters, Jaycee and Carlee, run 70 head of purebred red and black Simmentals southeast of Sundre on the Bergen Road. I have been raising Simmental cattle for 18 years and have sold 1-3 bulls each year through the Mountainview Bull Sale since its inception. The last 18 years have brought me to the point I am now. Twin Chief Simmentals already had a strong influence on my herd. Over the past year, I purchased the balance of their purebred herd, adding another 30 to my existing 40 purebred cows. I now feel that I can offer customers sound bulls that calve easy and grow for maximum profits. I look forward to the coming years and watching my two young girls grow up around the Simmental breed.

BW: 98. 205 day: 799. EPDs: 4.9 4.3 61.1 89.4 11.8 56.8 26.2

21A is the powerhouse of the bunch weaning at 1025 lbs. His 229U dam raised the heifer bull that Twin Chief has used the last few years. He should be a well-rounded package, leaving calves that are born unassisted and top the sale in the fall.

outlawcattleco@hotmail.com

Welcome to Transcon's Mountainview Sale. I am glad to be a part of this great event again. Outlaw Cattle is located NE of Hussar were I calve out approximately 110 purebred red/black Simmentals. With the opportunity of buying some cows and bred heifers this fall from two great breeders my numbers have increased and so did the maternal strength in my herd.

I continue a very strict A.I./Embryo program to incorporate outcross genetics into my herd. I also use strong herd bull selections to anchor the breeding program. I strive to breed and raise functional and profitable cattle. I market bulls and females off farm as well at special consignment sales.

The bulls were weaned in September and were raised from spring to then on native grass and their mothers. NO CREEP!!! They are then started and stay on Country Junction Feeds 14% Right Way bull ration and free choice grass hay.

I would like to thank all the buyers over the years for purchasing an Outlaw animal. Your support means so much. I look forward to visiting with you at the sale or feel free to contact me before to go through the bulls.

62. OUTLAW DIRTY DANGLE 14A

BLACK POLLED PUREBRED MALE

BPG785349

BMD 14A

4 February 2013

My lead off bull this year is a meat machine. 14A is a really deep, big topped, big hipped powerhouse. Very sound, lots of bone, big scrotal and great haired individual. Heaviest bull at both weaning and yearling time with no creep just grass and mama cow. In top 15% for YWT. Outcross pedigree influenced very strong on sires side by JF Milestone and Triple C Smarty Pants. Red Mile has been a standout since a young age when I bought him at the Remington Dispersal and what a stamp he is has left. The Diana Ross cow is a very moderate, great uddered Hustler daughter that keeps out doing herself each year. She has a full sister on the ground and is looking really good. If you're looking for something with a little twist to the pedigree and performance then look no further because Dirty Dangle is a true sale feature and will be a great herd sire.

7A is a result from the embryos I purchased from the Remington dispersal. He's a bull I think has a lot to offer to purebred and commercial herds. He is very long bodied, big hipped, wide topped and very sound structured. Lots of eye appeal, shape and great hair. If you're looking for little more performance then look for Milestone to do just that. Little different pedigree that can be used with confidence.

The only Torque son to sell and what a long bodied, deep sided, bigger stature bull that will add pounds. A very functional, big footed, nice haired bull that is solid black but has a little white star on his forehead. RF Torque was a top ten RBC finalist and named champion a few times as a calf and two year old. His offspring have been very marketable. The dam of 18A was chosen from the Remington dispersal for her great udder attachment, phenotype and bit different pedigree. Study this Torque calf, you will find a lot of good about him. He will raise heavy steers and you will want to keep replacements.

If you like baldys with a little extra chrome then 19A is a great candidate. This guy is a powerhouse that is real soft made, soggy and thick. An outcross pedigree with JS Sure Bet and the Candace cow adding a lot of maternal and paternal power behind 19A. The Sure Bet cattle are really becoming very attractive and marketable. If you are looking to fancy up your replacement pen or put some performance on Black Angus cattle, then Cruise deserves your attention

Gerrard Cattle Company Inc.

It is our sincere pleasure to once again be working with Transcon Livestock, Innisfail Auction Market, and our fellow consignors in the Mountainview Bull sale. We will again be bringing our entire pen of 2013 born yearling bulls to the sale.

Our family is fully committed to supplying the industry the highest quality, performance Charolais genetics you will find anywhere. The bulls this year are a powerful group of herd bulls sired by our exciting new herd sires, and backed up by our most highly proven and productive cow families. The Gerrard Cattle program uses an aggressive ET program so our customers will be offered a uniform group of performance Charolais that are powerful both in phenotype and genotype.

I would encourage anyone to check out our sale videos online at www.cattleinmotion.com and, as always, we welcome you to drop by the farm and inspect the bulls prior to the sale.

Thank You

Favre is one of the most exciting power bulls we've ever raised. The first impression you get when you see this smooth polled Blitz son will be his incredible length of spine, overall body mass, & all around performance. After you analyze him further, it becomes clear this bull is more than just a pound producing machine; this herd sire has the gentle disposition, extra testicular development, sound structure, and rugged eye appeal that the our industry demands from an elite Charolais herd bull. Favre's dam has been an excellent producer, still has a great udder at 9 years of age, and is one of the impressive phenotypic females in the herd. A son sold in last year's sale to Ed Miller from Acme. As well, she's the dam of Gerrard Dedication 33W, the high selling Long Yearling in the 2011 Mountainview sale going to Soderglen Ranches. Favre has all the tools to add value to your bull pen and power to cowherd for years to come. Selling 2/3 interest & full possession.

Gerrard Monzonite - herdsire at Rainalta Charolais and maternal brother to Earnhardt

Earnhardt is one of the most complete and balanced herd bull packages that will go up for auction this spring. He has always stood out for exceptional depth of body, muscle expression, and overall eye appeal. If you're trying to improve phenotype, structure and clean sheaths without sacrificing that rugged herd sire look, then this bull is one you need to take a serious look at. Earnhardt is the product of two of the most amazing individuals to ever walk the pastures at Gerrard Cattle Company. His dam, Evetta 2L, is the foundation female we have come to count on to improve volume and thickness as well as improving milk, udders and over all maternal power. His sire, Blitz, has become an instant star in our program in his first calf crop siring high volume, high performing cattle with amazing consistency. A flush mate to Earnhardt, Gerrard Evetta 2A was a co high seller at the Gerrard Cattle Company female sale in December going to Serhienko Cattle Company. Another sister, Gerrard Evetta 1A, was a top selling female going to Medonte Charolais and Moyer Cattle Co. This bull has everything it takes to be a foundation sire in any cowherd in the country. Selling 2/3 interest & full possession.

Gerrard Evetta is a foundation cow with the most daughters in production of any cow in the history of Gerrard Cattle Company. Evettas daughters have been highly sought after by many of the leading Charolais breeders from across Canada. Her sons are easy doing, deep bodied and have that extra muscle shape and thickness that the industry demands from the Charolais breed. She is the dam of Gerrard Preacher 31U, sire of last year's record high seller, Gerrard Pastor, to McLeod Livestock. She is also the dam of our 2nd high seller last year going to Rainalta Charolais. Evetta sons have always been in high demand for our commercial customers; she has many herd sires working in some of the top producers you'll find. We are offering 9 direct sons and 1 grandson of this great female in this year's Mountainview sale.

We are proud to bring our string of bulls back to the Mountainview sale. 2014 is shaping up to be another positive year in the cattle industry. The dip in grain prices has helped drive the calf market up and this sale is a great opportunity to add to your bull battery. We do not sell any yearlings off the farm and have brought our best 2 year old virgin bulls to this sale. These bulls were not pushed as yearlings and have been on a TMR ration of silage, hay, and oats since November. This is a collection of strong, powerful, big nuted bulls. We are confident these bulls will fit right into your program and will sire calves that you can be proud of for years to come. If you have any questions about the bulls please call Mike at 403 874-7698.

Travis Cell: 403-994-1065 Becky Cell: 403-586-3044
redlinelivestock@hotmail.com www.redlinelivestock.com

This year we have brought a pen of bulls to the sale that we feel is going to represent their dams well. We hope that the consistency and the power in the bulls speaks for itself, and we are happy with the structure and soundness from the ground up.

The red bulls are a tight group this year, one like the other. We feel the Red Devil sons are demonstrating great herd bull qualities and we look forward to seeing them work. To add to it, Red Devil is a son out of Ter-ron's Diamond Mist 290P cow, who was Grand Champion at Farm Fair International, and was an RBC Supreme Challenge Top 10 Qualifier. The daughters should be outstanding. The Herefords have some great bloodlines in the works as well, and we are sure that these boys will raise calves the way you want them, thick, hairy, and sound. Offered here are two of the first Square D Torant sons ever to sell.

The bulls this year, as always, have been wintered on a pail fed ration and have never seen a creep feeder. Their feet have not been trimmed, and their feed will not have sacrificed longevity in any way. These bulls are honest and hard, and we raise them to work hard and bring in a profit on your cows.

The bull pen is available to view before sale day, and we welcome everyone to the farm to view mothers as well.

We would like to thank all of our buyers throughout the past year for supporting our program, and we hope to deliver a stronger pen of bulls each and every year, to build, add and grow every operation along with our own.

Sincerely,

The Pages - Travis, Becky, Joni, & Grady

This bull is a for sure stand out in our pen this year. He carries natural hard muscling and roundness over his back and hips. He is a firm, stout bull and is naturally masculine, with great expression through his heart and flank. His dam is a perfectly uddered cow that never misses. He's the type that will calve out unnoticed and throw in growth, muscling, and vigor in the calves. A maternal brother sold in the sale last year to Valley Crest Farms. One of our favorites in the Angus pen this year.

Thick and long, this bull takes after his mother, who is one of the easiest moving, thickest cows in our herd. He can cover ground easily, and maintains exceptional balance in his step. Like his sire, he has weighed in heavy all year long. The Red Devil sons are proving to be a uniform group with a lot of herd bull qualities. The combination of his sire and dam ensures that this bull will throw perfect uddered cows. To add to the package, he brings an awesome hair coat, not easily found in the breed.

Out of a heifer, this bull will definitely be one to watch out for. His overall mass and style takes after his grand sire, Full Throttle, and with Kingman and Diamond Mist 290P on his top side, this bull has got the blood and the potential to sire some great calves. His mother has a perfect udder, with tiny teats and outstanding capacity. She has stood out since day one. She also put a hair coat on this boy that shouldn't go unnoticed. Another favorite of the Red Devil sons.

We have been impressed by the Real Deal calves since they were first born. These sons have a bully look and masculine phenotype the moment they hit the ground, and they grow with a vengeance. His mother was purchased from the Kuntz dispersal in 2012, and we are more than happy with this calf. He will stamp performance and thickness, good testicle growth and thick hair coats on all his calves.

Out of a 12 year old cow, this calf weaned heavy and put the gas on over winter. Now one of the biggest in the pen, he displays a lot of his sire's most well renowned traits. A Sakic son, this bull will add shape and dimension to his calves, as well as length. A high performance bull, out of a well uddered dam.

Deep and dark, 17A is an easy moving, sure footed bull. His dam is a very attractive Cash 2R daughter, who has a picture perfect udder. She consistently raises calves with EPDs in the top ten percentiles for the breed. The combination of his grand sires, Cash 2R and Kingman, this bull will raise high performance, solid calves. His females will be awesome. A maternal brother sold last year to Mullen Land & Cattle at Strathmore, AB.

This bull was Travis' favorite on pasture all summer. From day one he had a lot of growth, and weaned off as one of our heaviest in the fall. His 12 year old dam raises bull after bull, and has never been in the calving barn. He is deep and clean fronted, and will add performance to all his calves.

This bull will catch every eye in the pen. Thick and compact, he has a definite presence about him. With a lot of natural depth and capacity, 15A has style and eye appeal as well. We bought his mother out of the Soo Line dispersal sale, and she is an easy keeping, low maintenance cow. A Red Devil son that should be safe for use on heifers.

20A is a solid, stout package with a light birth weight, safe for use on heifers. He is strong topped, with a nice roundness in muscle and good definition on his front and hind quarters. We recently bought back his sire, Redline Turbomax to use on our purebreds, and we are loving the look of the females hitting the ground.

RLU 25A

24 February 2013

This is the one of the first Torant sons we have on offer, ever. Torant has added hip, fantastic udders, and outstanding eye appeal in all of our females. His daughters have built our herd, and now we are very excited to start offering his sons to build yours. Like his father, 25A has a great shape to him, and is round in all of the right places. He has natural hip and hard muscling that isn't disguised by feed or fat. His color and pigment are exactly what we look for. His mother did a great job, this being her first calf. She comes from our top cow family, and we have considered keeping this calf for use on our own all year. We hope he is utilized to his fullest potential. We can't say enough about the Torants, but this bull speaks for himself. Our pick of the Hereford pen for sure.

email: mkubinec@yahoo.com

We would like to welcome everyone. I have brought a group of low input, problem free bulls to town. You won't see many national champions in my pedigrees on purpose. Instead I focus on things that work in the real world. Feed is our biggest cost, and Cutbank genetics excel at feed conversion and fleshing ability. We will be breeding 140 females this year and my cow herd works hard and if they can't produce they are gone. When things get tough, my cattle will get on base. The bulls are not creep fed, nor pushed. They are fed with longevity in mind. If you have any questions feel free to ask.

Visitors always welcome!

We are pleased to have the new opportunity to participate in the Mountainview Bull Sale.

Our Polled Hereford herd was first established in 1917, and now for four generations, our family has been in the business of supplying quality breeding stock. We run a no-nonsense operation and cull our herd hard for functional and production traits.

The two yearlings we are offering this year were raised without creep, and then fed a growing ration over the winter at Olds College, where they were part of a residual feed intake research trial. They are not over-fitted and ready to work.

Site 16, Box 7, RR 2, Sundre, AB T0M 1X0

Ph: 403 638-4142

email: vancuren@telus.net

First off I want to thank Jay Good and his Team for hosting this great event.

Our ranch is located West of Sundre and is home to just over 120 head of Red Angus momma cows. Our program started in the commercial side and when we decided to enter the purebred world we built our herd using top genetics from reputable breeders Leon Layden, Vikse Family Farms, Six Mile Red Angus, Severtson Land and Cattle and Chickadee Red Angus. Throughout the listing you will find strong maternal traits combined with performance producing both heifer and cow bulls.

I welcome all enquiries or if you would like to view the bulls prior to sale time please call.

Terms & Conditions

TERMS - The terms of the sale are cash or cheque payable at par at sale location. The right of property shall not pass until after settlement is made. Transcon Livestock Corp. reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for his purchase Transcon Livestock Corp. reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released.

BID - Every animal consigned to the sale must be sold by auction. No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted. Each animal will be sold to the highest bidder.

SALES TAXES - Applicable sales taxes will be charged on semen, embryos and trucking fees (if listed), respective to the home province of the buyer, not the seller.

DISPUTES - In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK - Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

INFORMATION SUPPLIED - The information contained in this catalog is believed to be true and accurate. However, the information has been supplied by the seller and neither Transcon Livestock Corp. or Jamesway Enterprises Ltd. assume any responsibility if the information supplied is not accurate.

CATTLE PICTURES - The images in this catalog are believed to be accurate representations of the individual animals. Transcon Livestock Corp. and Jamesway Enterprises Ltd. assume no responsibility if the images as received have been altered.

ANNOUNCEMENTS from the auction block will take precedence over the printed matter in the catalog. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY - A registration/recordation certificate issued by the applicable breed association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

SHIPPING - Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

BREEDERS GUARANTEE - As per applicable Canadian Breed Association Breeding Guarantee guidelines. Copies are available at the sale settlement desk to be picked up by the buyer at any time. In no event shall the seller be responsible for reimbursing more than the purchase price.

EXCEPTION TO GUARANTEE - In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

HEALTH - It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Transcon Livestock Corp. assumes no responsibility for the health status of any animal in the sale.

ACCIDENTS - Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

TRANSCON LIVESTOCK CORP. IS AGENT ONLY - It is to be clearly understood that Transcon Livestock Corp. is only acting as a medium between buyer and seller and is not in any way responsible for any failure on the part of either party to live up to his obligations, neither does Transcon Livestock Corp. assume any financial obligations to collect or enforce collection of any monies between parties, and any legal action that may, in exceptional cases, be taken, must be between buyer and seller.

The Auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance prior to the sale with the owner or Sale Managers.
