

Riverbend Fleckvieh Simmentals Dispersal

1:00 p.m.

*Monday, **September 1, 2008***

on the farm, 17 km West of Breton, AB

Sales Management Comments

From a genetic standpoint, the Riverbend herd would rank as one of the best Fleckvieh herds in Canadian history. The merits of Fleckvieh are well observed by the phenotypical merits of this herd, in particular their do-ability and their natural attribute to create pounds.

From its original development stage, quality was prioritized over color, however as the quality evolved to a comfort level, a more solid color pattern was bred in and now only enhances their thick, cosmetic virtues.

The Riverbend herd has always consigned feature animals to the Alberta Fleckvieh Weekend proving not only marketability but customer satisfaction with the resulting product.

This may be truly the most "complete" dispersal we have ever managed. Not only are we selling the entire cowherd, including herdsires and the bull calves, but also all their cattle handling equipment such as the stock trailer, bale processors, feeders, panels, blower, A.I. tank (including semen and embryos separately), etc.

I can assure you will enjoy yourself on Labor Day to a great pre-sale meal and Greg's "after party". Let us know if we can help with your potential purchases.

See you Labor Day.

Riverbend Fleckvieh Welcome

We would like to extend a warm invitation to join us on September 1st, 2008 for the dispersal of Riverbend Fleckvieh Simmentals.

For the last twenty two years we have always tried to breed our Fleckvieh cattle with high maternal traits. Herd bulls are the routes to tapping into dominant females. We have found, through the years of breeding livestock, that if you want to get the strength of a male, you keep a son out of one of his top daughters.

Females... the most important ingredient to genetic construction. Females leave their strength through sons and males leave their strength through their daughters. Over the years we have found that the female is more than 50% of the genetic equation. The only reason to use a male is to get to the genetics of his mother.

You are welcome to come and join us any time during the weekend, bring your RV and come and camp and enjoy yourselves in this beautiful area. Don't forget to bring your guitars and music for a campfire on Sunday night. Buck Lake is close by, Thunder in the Valley (Drag Car Racing) is also happening in Drayton Valley that weekend. Pigeon Lake is close by and a visit to the village is always fun. Of course the sale is on Monday, the 1st of September.

Roast Brisket Lunch at 11:30 with the sale at 1pm. We are offering a buyers draw.....TRIP FOR 2 TO HUATULCO MEXICO. We would love for two lucky people to come and spend some time with us in this beautiful part of Mexico, which is fast becoming the retirement capital for worn out old Fleckvieh breeders. We would love to show you a great time, fishing, snorkeling, some of the best diving in the world, turtle sanctuary, bay cruises, Magic falls, great cuisine, and wonderful sunsets.

We hope you can take the time to join us on this special weekend. Should you need help getting to and from the airport (Edmonton International) or help with accommodation please email or give us a call.

Looking forward to seeing you all,
Greg & Carol

BW: 106; 205 day: 925; 365 day: 1400.

Patriot's mother, MRLN Johanna 21A, was purchased from Bruce McDougall's dispersal. She was 14 years old when Patriot was born, so there is longevity in this bull. Also the time honored maternal traits of Romulus 53R which Johanna was a true testament of. Patriot was specifically kept to use back on Goldminer 85G daughters. When weaned he had a very respectable adjusted weaning weight of 925 lbs. At 11.5 months he had 41 cms of scrotal size. Two sons went to the Bull Fest in 2006. We have only sold one daughter and she went to Smith Simmentals last fall from the Select sale. His chute side Ribeye is below:

Tag #	Weight	Marbling	Backfat mm	REA in ²	W ₁ adj REA% in ² per 100 #	Lean Meat Yield
RBEN 25P	1440 lbs	4.70	3.81	14.63	1.15	66.74

Riverbend is selling the walking rights and 1/2 semen interest in this bull. We will retain 1/2 semen interest in this bull and on sale day he will be ready to go to stud for semen collection. We think Patriot 25P has a lot to offer the industry. Let me know what you think when you see him sale day!!!!!!

Well Banker has met all our expectations. He produced only 225 straws in stud for use in Canada. Unfortunately after that his semen, although it tests very well, could not pass the post thaw test at Alta Genetics. As a result we could not export semen to Hampton Downs Simmentals in New Zealand who are also partners in the Banker Group. Banker works well as a walking breeding bull and there is a chance he may improve on a post thaw test in the future.

His calves are awesome, they are long bodied and born easy and all with goggle eyes. One of his sons will be in the sale. Also some Canadian semen.

We brought Jaso this spring and we bred a few cows to him. The maternal power in this bull comes from both sides but the depth is from the old Eve cow, 5 generations back on the maternal side. We intended to use Jaso on all Goldminer and Patriot daughters. One has to remember embryo calves are usually longer gestation so don't worry about his birth weight. His CE, BWT and MCE EPD's are good.

Bred to Riverbend Patriot 25P FF -631905- March 29/08 and exposed to same March 21 to June 09/08.
Well here is the cow that I think is not only a testament to Bruce McDougall's breeding program, but an absolutely fabulous female. She produced Riverbend Tamarack 60N, a heavy muscled polled bull used extensively in our breeding program. Jola 130K is another cow with tremendous performance. Cows like Jola 130K don't come along very often so don't let her slip by.

A lot: FULL FLECKVIEH FULLBLOOD FEMALE, RBEN 130T, Riverbend Tulia Of 130T, -691858-, by Riverbend Patriot 25P FF -631905-, Dec 6/07. BW: 109. Open.
Tulia is one of the best heifers we have raised. How could you miss with a bloodline full of such great bulls and Fleckvieh females. The word Maternal is Quadrupled in Tulia 130T.

Exposed to Riverbend Patriot 25P FF -631905- March 21 to June 09/08.
Rachel 3J is a leading female in the herd. She has never missed with any bull in our breeding program and her sire and dam are industry leaders. She has never been flushed and with so much maternal strength, she should be to maintain the bloodline. She has 6 daughters in the sale.

A lot: FULL FLECKVIEH FULLBLOOD FEMALE, RBEN 36T, Riverbend OF Tiara 36T, 691852, 4 November 2007, 106. Open.
Well, Patriot and Rachel, what can you say..... you probably have figured out that our breeding program is based around maternal power. Tiara 36T is a testament to that. I believe that if you keep breeding the maternal strength into your cow herd, the bull calves will be awesome producers of females, and great bulls for the commercial industry and the female offspring being towers of maternal strength. Tiara is another Patriot sired sweetheart.

Patty was an off age transplant calf who was bred at 16 months. That little bit of extra age has sure made a difference to her growth. She is one of the easiest fleshing young cows we have in the herd. With the addition of Bernd on the top side of her pedigree, she milks well and he gives a little more length. A good angular female.

26. RIVERBEND PATTY 40P FF

A lot: FULL FLECKVIEH FULLBLOOD MALE, RBEN 30T, Riverbend OF Patriot 30T, -691846-, Twin, by Riverbend Patriot 25P FF -631905-, Oct 12/07. BW: 89. Patriot 30T was born a with a twin sister. He is a very long bull and both calves were born unassisted. He will make an excellent bull prospect and is fully loaded with maternal power.

Jasmine has a "loaded, who's who", African bloodline. She calved unassisted and has a super disposition.

A lot: FULL FLECKVIEH FULLBLOOD MALE, RBEN 425T, Riverbend Terex SA 425T, -691859-, by Bar 5 SA Banker 833R -T652665-, Dec 22/07. BW: 110.
Terex 425T is a lovely, smooth shouldered bull. He was born unassisted, which is a testament to the South African breeders who bred these bloodlines. The African cattle, to me, brought more calving ease into the North American Fleckvieh cattle which is a definite plus. Don't let Terex 425T pass you by. He is a good one.

Terms & Conditions

TERMS - The terms of the sale are cash or cheque payable at par at sale location unless satisfactory credit arrangements have been made previous to the sale. The right of property shall not pass until after settlement is made. Transcon Livestock Corp. reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for his purchase Transcon Livestock Corp. reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released.

BID - Every animal consigned to the sale must be sold by auction. No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted. Each animal will be sold to the highest bidder.

DISPUTES - In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK - Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

INFORMATION SUPPLIED - The information contained in this catalog is believed to be true and accurate. However, the information has been supplied by the seller and neither Transcon Livestock Corp. or Jamesway Enterprises Ltd. assume any responsibility if the information supplied is not accurate.

CATTLE PICTURES - The images in this catalog are believed to be accurate representations of the individual animals. Transcon Livestock Corp. and Jamesway Enterprises Ltd. assume no responsibility if the images as received have been altered.

ANNOUNCEMENTS from the auction block will take precedence over the printed matter in the catalog. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY - The proper Registration or Recordation paper, as the case may be, will be duly transferred and furnished to the buyer for each animal after settlement has been made.

SHIPPING - Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

GUARANTEE - As this is a dispersal sale all cattle will be selling as is with no further guarantee. However, bred females will be pregnancy tested and results along with any pertinent information known to the owners will be announced from the auction block

EXCEPTION TO GUARANTEE - In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

HEALTH - All animals will have passed the required tests as determined by Agriculture Canada at sale location. It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Transcon Livestock Corp. assumes no responsibility for the health status of any animal in the sale.

ACCIDENTS - Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

TRANSCON LIVESTOCK CORP. IS AGENT ONLY - It is to be clearly understood that Transcon Livestock Corp. is only acting as a medium between buyer and seller and is not in any way responsible for any failure on the part of either party to live up to his obligations, neither does Transcon Livestock Corp. assume any financial obligations to collect or enforce collection of any monies between parties, and any legal action that may, in exceptional cases, be taken, must be between buyer and seller.

The Auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance prior to the sale with the owner or Sale Managers.
