8th annual

SKOR Simmental Bull Sale

Wednesday, **MARCH 10**, 1:00 p.m.

Pavilion B, Camrose Regional Exhibition

Sales Management Comments

The Skor bulls always rank at the top end of the annual Simmental "standings". It is not hard to find quality Simmental bulls in this era, but to find as many of this calibre, all with the same tattoo, is a testament to the job these people have done. This cowherd has been "tweaked" for about ten years consecutively, keeping all the best females to strengthen its now impressive level. However, December of '09 saw the first Skor females to sell in a decade. They stepped into "Ultimate Red & Black XII" and two out of their three females were called out to be the sale "starters" and inevitably both were in the "high seller" category. Not bad for your first time to town. Females like that are the mothers of these bulls.

The black bulls offer an incredible amount of uniformity in a high level of quality. A sire group new to the Skor roster are the "Enticers", who stand among the best in the pen. I had to ask to see three dams of these "Enticer" sons, one by "Dream On", one by "Powerline" and the other a "Black Joker". All three are good enough to be "the mother of your next herdbull". Of course, many of the other tried and true sires at Skor Simmentals will be represented again.

In the red pens, "Croquets" and "Editions" catch your eye. It was a "Crocket" son who was the second high seller here a year ago and in many cases they showed up at other sales "along the trail too". As always, there will be an ample supply of various sires in groups of brothers to facilitate your Simmental bull needs.

We are comfortable chatting with you about this very impressive set of bulls and the people behind the cattle. Let us know if we can help you with any purchasing assistance you may need.

See you in Camrose,

Jay Good

Terry Skoretz 780/385-2027

Delivery Options:

- A:** \$50 discount per lot if picked up from Camrose on sale day.
- B:** Bulls delivered free of charge in Alberta and Saskatchewan at the seller's convenience. All other points, bulls delivered at cost.
- C:** If you cannot take delivery of your bull when we are in your area, bulls must be picked up from the farm by the purchaser.

Bulls will be wintered free of charge until April 15. After April 15th a charge of \$3.00/day will be applied.

All bulls returning to the farm do so at the buyer's risk and must be insured. Insurance agents will be available sale day.

Health

The cowherd is on an annual vaccination program using Bovisheild Gold FP5, Vision 8 with Somnus and Jencine. The bulls receive one shot of Bovisheild Gold, Vision 8 with Somnus, and Once PMPH at spring turnout. The same is given on pasture 3 weeks prior to weaning and then boosted the day they come home and given A&D.

Semen Interest

We reserve the right to obtain semen on all bulls for on farm use at the buyer's convenience and seller's expense.

We always have extra bulls at home if you have problems during the breeding season.

Welcome to the Skor Bull Sale

We would like to thank all those who have purchased bulls or attended the sale in the past. The cold weather last year was less than ideal for a bull sale and we appreciate that you took time out of your busy schedules to attend the sale. Hopefully 2010 will have something better to offer not only in terms of weather but for the industry as well. We invite you to come and check out the bulls at the CRE in Camrose. As always you can stop by the farm and see the bulls in their pens. This year's offering has many prospects from a new AI sire, Enticer. The set of calves he has produced are impressive and we are excited for you to see them. As well as the tried and true AI sires we tried a few new sires to our program, Caesar, Top Gun, Black Edition and Voyager. The bulls will be available for viewing in Camrose, the Monday and Tuesday before the sale. We hope to see you and would be happy to discuss your bull needs, whether it be at the farm, over the phone or on sale day.

The bulls have been developed with a high roughage, no starch diet of silage, hay and soy hull pellets. The pellets are made at the Wetaskiwin Co-op and we have been using them the last 3 years. Compared to feeding barley this is definitely not the cheapest way to feed bulls but we believe it is the best way.

Why use a Simmental bull? We believe the answer lies in what has been happening at the markets the last couple of years. Feedlots are paying the same dollars per pound for 800 lb calves as they are for 400 lb calves. The Simmental breed has the genetics to add muscle and growth to your calves. The heavier that calf is come sale day, the bigger the reward back to you. As well the breed is known for its strong maternal traits and good milking ability. And finally, HYBRID VIGOR!!!! With so many herds using Angus cross females, Simmental bulls are a natural match. The Simmental/Angus cross has proven itself in auctions, feedlots and pastures across the country.

Finally thank-you to all those who have helped us get the bulls to sale day. We remind you that should you be unable to attend the sale, to please contact any of the capable and professional staff of the Transcon team to assist you in your purchase.

Sincerely

Debbie, Terry and Dale

1. SKORS BLACK ENTICER 4W

BLACK POLLED PUREBRED MALE
BPG719077

ETZ 4W

1 January 2009

An outstanding herd sire prospect. He comes with a mere 81 lb birth weight and explosive growth. He had the second highest weaning weight and the highest yearling weight of the black bulls. His thickness, depth, length of spine, muscling and huge testicles all make for a very complete package. His powerful Joker dam is one of our favorite cows. 4W has all the qualities to enhance any program.

Here's a deep bodied, performance bull who posted one of the heaviest weaning and yearling weights of all the bulls. This black Caesar son is a thick, big ribbed, big testicled, powerful bull. His sons should be impressive and with Caesar, Joker and Power Stroke in his pedigree, his daughters should be equally as strong.

EPDS Spring 2010: 9.9 -0.3 33.5 56.9 7.9 14.2 -2.6

This bull was small when he was born but grew well. He comes off a super quiet Magnum daughter whose calf this year was very small as well, but is also growing very well. He should calve easy and may even work on heifers. Although with Magnum and Blackie on his mother's side, it would be best to try only a few heifers the first year. He is a 3/4 brother to lots 14 & 18.

Here's a deep bodied, well balanced son out of the red AI sire Starquest with a moderate birth weight and plenty of performance. His dam is a well uddered, big milking Black Knight daughter. Although this bull's milk EPD's are below breed average, our experience with Black Knight and Starquest females is that they have lots of milk and to date, out of several females, not one has been culled for too little milk. Given our experience, this bull will likely add milking ability to your herd.

A deep sided, dark red son of Trademark. Trademark is a calving ease sire whose semen is no longer available. His mother is a small framed, well uddered two year old who did a remarkable job on her first calf. 13W had the highest weaning and yearling weight of all the bulls. If you're wanting to raise those scale pounding steers or needing to add some milking ability to your replacement females, check out this bull.

A dark red, low birth weight bull out of the calving ease sire Dream On. There are very few sires in any breed that combine calving ease and growth as well as Dream On. He really stamps his calves and this one is no exception. His Dakota dam is perfect uddered with just the right amount of milk. 30W is a non-dilutor.

A dark red, moderate framed bull out of a dark red Freedom daughter. The Freedom daughters are good milking cows with small teats. This bull has good EPD's for calving ease and that, combined with his rectangular build and moderate birth weight, suggest that he should calve very well. We used Gunner heavily in our heifer pen as his calves are born easily and have plenty of vigor.

A moderate framed bull showing good muscle definition. His mother is a well uddered, moderate framed cow, as is his grand dam. If you're looking for a bull who can produce an awesome set of steers as well as strengthen your maternal traits on replacement females, check out 210W.

A blazed face bull with lots of rib, top, and a big square hip. This bull's mother is out of one of our Nugget females that we really like. They are well uddered cows who throw lots of natural thickness and volume into their calves. 215W may be one of the thickest, deepest, and beefiest bulls to sell this spring.

The last Blackie son to sell from one of our few remaining fullblood cows. 16J is a small framed, easy doing cow whose progeny have always had lots of muscle. 219W is a dark red, beefy bull with a good hair coat. If you've got a set of solid red cows, this bull has the potential to add pounds and chrome to your calves.

This bull is a non-dilutor, which as we have pointed out several times, will not produce grey calves on black cows. This is a well balanced bull with good muscle, depth and rib on a moderate frame. If you've been adding some black cows to your herd and would like to use a bull that will complement both red and black, take a look at 246W.

One of the younger bulls in the sale, this dark red bull has lots of hair and plenty of eye appeal. We have 2 milking females out of the 50R bull and they are both moderate framed, easy fleshing females with good udders.

Terms & Conditions

TERMS - The terms of the sale are cash or cheque payable at par at sale location unless satisfactory credit arrangements have been made previous to the sale. The right of property shall not pass until after settlement is made. Transcon Livestock Corp. reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for his purchase Transcon Livestock Corp. reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released.

BID - Every animal consigned to the sale must be sold by auction. No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted. Each animal will be sold to the highest bidder.

DISPUTES - In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK - Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

INFORMATION SUPPLIED - The information contained in this catalog is believed to be true and accurate. However, the information has been supplied by the seller and neither Transcon Livestock Corp. or Jamesway Enterprises Ltd. assume any responsibility if the information supplied is not accurate.

CATTLE PICTURES - The images in this catalog are believed to be accurate representations of the individual animals. Transcon Livestock Corp. and Jamesway Enterprises Ltd. assume no responsibility if the images as received have been altered.

ANNOUNCEMENTS from the auction block will take precedence over the printed matter in the catalog. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY - A registration/recordation certificate issued by the applicable breed association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

SHIPPING - Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

BREEDERS GUARANTEE - As per applicable Canadian Breed Association Breeding Guarantee guidelines. Copies are available at the sale settlement desk to be picked up by the buyer at any time. In no event shall the seller be responsible for reimbursing more than the purchase price.

HEALTH - It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Transcon Livestock Corp. assumes no responsibility for the health status of any animal in the sale.

ACCIDENTS - Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

TRANSCON LIVESTOCK CORP. IS AGENT ONLY - It is to be clearly understood that Transcon Livestock Corp. is only acting as a medium between buyer and seller and is not in any way responsible for any failure on the part of either party to live up to his obligations, neither does Transcon Livestock Corp. assume any financial obligations to collect or enforce collection of any monies between parties, and any legal action that may, in exceptional cases, be taken, must be between buyer and seller.

The Auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance prior to the sale with the owner or Sale Managers.
