NOVEMBER 28, 2011

Beautiful Plains Ag Complex, Neepawa, MB

OFFERING 57 LOTS

34 Red Bred females 10 Fleckvieh Bred females
13 Black Bred females

Welcome to the 2011 edition of the Harvest Hoedown. It is with great enthusiasm I write these Sales Manager comments. As we move through the year we have faced many struggles and adversities. The spring of 2011 was one of many challenges for many producers, but as history has shown us before, the sun will shine again and better times will prevail. As we move into the last quarter of 2011, things are looking good. The flooded land is drying up, cattle prices are moving forward at a wonderful pace giving producers the boost they have waited for, for years, and the grain sector is doing very well.

As I toured the wonderful province of Manitoba this summer I not only saw some beautiful country that I didn't know existed, but found a great set of sale cattle in the process. This year's offering comes from many of the same seed stock producers as well as some new ones. We have an excellent set of bred heifers from Northern Light Simmentals. As usual Neil and Denise have assembled a fantastic set of top cut bred heifers for your appraisal. Schweitzer Simmentals have also dug deep into their replacement pen to offer their top cut as well. Cam and Myrna love the cattle business and once again will be very proud to offer these heifers. Black Diamond Simmentals is new to this year's sale, but will quickly find a place with the set of females they will be bringing to town. Bruce Robinson and family are certainly not new to the Simmental business and will be bringing a set of stout youthful heifers from the heart of the replacement pen. A very nice set of heifers will be offered as well from Blair Workman and Son. Calvin is a very dedicated young breeder to the Simmental world and loves the cattle business. He will bring his best to Neepawa as well. Pure Country Simmentals, Richard Bramley, is another young breeder selecting some of his top heifers for auction as well.

A little bit of a twist this year will be a cow dispersal from the Homestead Simmental program. Perry and Michelle Thesen have decided that the work load is getting a little much with work and a young family and have decided to reduce the cow herd down for a few years. This is an opportunity to select from their program with a nice group of young attractive females as well.

As always, we at Transcon Livestock will be on hand to assist you with any information about any of the cattle and the programs selling them. We can also assist you with any of your absentee buying needs in a professional manner and the utmost confidence.

Welcome to our 17th Annual Harvest Hoedown Sale! We can't control mother nature, but we can control the genetics we put into our cattle herd. Just take a trip to the local auction yard and see those big Simmental calves bringing top dollars. Jump in and grab this opportunity to add a special heifer to your program as you will reap the rewards in the future. We have tried to bring a cross section of reds, blacks and, of course our, fullbloods for your appraisal. The heifers have been treated with Dectomax and vaccinated with Bovashield, Ultrachoice and have had a vitamin shot.

Thank you in advance for attending our sale and we wish you all the best with your purchases. We look forward to visiting with you come sale day!

Observed bred May 6/11. PT safe to May 6/11.

Here is another fancy Vegas heifer that is moderate framed and thick with lots of extra capacity that you want to see in a brood cow. She comes from a very good cow family. We have sold many, many offspring out of her grandmother, Flower 8F, (Western Union cow). She was our girls show heifer for many years. Take a good look at 14X!

Exposed to IPU Romano 90X 735012 May 8 to Aug 31/11. Observed bred May 5/11. PT safe to May 5/11.

This Vegas x Metro heifer is an excellent combination that everyone will fall in love with. We consider 4X as being one of our Sale Features! A typical Vegas....deep bodied, easy doing, eye appealing, attractive, with calving ease and milk built into her pedigree. Good weaning and yearling weights are a bonus for this heifers offspring. She is bred to our new and exciting Full Fleck herdsire, IPU Romano 90X, a bull that has a lot going for him. He is above average in almost every aspect of his EPD's.

This goggle eyed, fancy Fullblood heifer is Myrna's pet! A Vegas daughter out of a real attractive Marcus cow. If you are looking for performance in your calves then look no further. She is above average on WWT, YWT, MCE, MWWT and MILK. Her offspring should be exciting being bred to a top, homo polled, Full Fleck, AI sire, Hugo.

Exposed to IPU Accelerator 53U PG700342 Apr 25 to May 20/11. Observed bred Apr 25/11. PT safe.

Here is a moderate framed, polled heifer with the red influence on her top side and the Fleck influence on the bottom side of her pedigree. You can see this combination made her very correct in structure and an easy keeper to boot. You could breed her either way, but we decided to breed her to our homozygous polled, red bull, IPU Accelerator 53U.

Well here is our first consignment from BSW Livestock. BSW was created two years ago to produce leading cattle for the industry. We purchased 8U as the high selling bred heifer from Tim Jersak's Dispersal to start our herd. Little P is for sale only to promote our growing herd not because we want to. We feel that she is a very well pedigreed heifer that should fit into many producers' herds!

Exposed to BLCC Blackjack 93X BPG739969 Apr 5 - June 5/11. Observed bred Apr 13.

A very high performing daughter of Black Joker. We all know how well these Joker daughters turn out. We sold a full sister to Yellow Rose Cattle Co. ten years ago at Agribition. That heifer turned into a very consistent producer for Bobbi-Gayle, raising her numerous top performing bulls that sold well for her. Proof is in the pedigree!

A little different pedigree. 65X is out of Cutting Edge, the grand sire of Dynamite Black. Her dam is a solid red, great hair coat cow that is proving to raise the right kind as she has a top prospect bull calf in the pen this year. 65X is a very fancy, sweet made heifer with lots of middle. Bred to our new Black Jack son that we purchased this spring from Bonchuk Farms.

I would like to thank Transcon and the Hoedown group for the opportunity to be apart of this sale. I believe we have a very strong set of females for this sale, all top bloodlines in our herd and bred to industry leading calving ease sires. The heifers were preg tested safe to date at the 50-60 day range their pregnancy. They have received all of their vaccinations and will have had their first scour guard shot. Thank you again from all of us at Black Diamond Simmentals.

Homestead Simmentals

Michelle, Perry, Brady & Mackenzie Thesen

Box 223, Carrot River, SK S0E 0L0

Ph: 306 768-3662 email: p.m.thesen@sasktel.net

We operate a mixed farm located 6 miles south east of Carrot River, SK consisting of 2500 acres of grain land and 30 cows. Perry also owns a very busy plumbing and heating business that keeps him away from home most of the time when he's not farming. I am relatively new to the Purebred industry but being a rancher's daughter, I have been around cattle all of my life and developed a passion for them at a very young age – namely Simmental cattle. It has been a continual learning curve but the one thing that remains the same for both commercial and purebred cows is the good ones you keep and the ones that aren't gonna do the job you don't. I can guarantee my cows will do the job. My herd is at a point where it could expand quickly but due to the demands of a young family I have decided it is necessary to "sit back" for awhile. I will be retaining the 2011 heifer calves so as to have something to build back off of in the future. You will notice my cows are off of some of the industry's leading AI sires including Good A Nuff, Bodybuilder, Red Label and Anchor "T" Rusty. I have relied heavily on AI but am also pleased with females I have kept off of a Dayton's Pol Neumann son we purchased from Gist Simmentals.

The cows are bred to calve February/March. Because of the condition of our facilities due to excess moisture this spring I did not even attempt to AI cows. In saying that, I am confident in a Rochfort son that I purchased from Crossroad Farms and feel he will complement the cows well. He caught my attention right away and continues to mature into a type of bull I look for. He is a moderate framed, long-bodied, wide topped, thick, calving ease, red bull with a pleasant disposition.

The bull calves have all been sold off of the farm and for the past 3 years I have brought a few select females to the Shades of the Prairies Sale in Brandon.

It is with mixed emotions that I offer these cows for sale. They have been a big part of my life and I have enjoyed building the herd to where it is today. Please feel free to contact me anytime. I look forward to seeing you sale day.

Exposed to Crossroad Jackpot 120X PG736434 Apr 17 to Aug 11/11. PT safe for early Feb/12.

This will be the most difficult cow for me to see go. She is a beautiful cow that I can't find fault with. I've had to remind myself countless times to "stick to the plan" when I think I won't be able to go through with selling her. She is my most docile cow and likes to meet us at the gate to have her back scratched. She is also very easy keeping and does not show her age.

A Red Teddy daughter that is off a Jack Pine Bali cow that consistently produces one of the heaviest calves every year. This heifer is a brood cow in the making.

Homestead Simmentals

Terms & Conditions

TERMS - The terms of the sale are cash or cheque payable at par at sale location unless satisfactory credit arrangements have been made previous to the sale. The right of property shall not pass until after settlement is made. Transcon Livestock Corp. reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for his purchase Transcon Livestock Corp. reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released.

BID - Every animal consigned to the sale must be sold by auction. No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted. Each animal will be sold to the highest bidder. **DISPUTES** - In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final. **PURCHASER'S RISK** - Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

INFORMATION SUPPLIED - The information contained in this catalog is believed to be true and accurate. However, the information has been supplied by the seller and neither Transcon Livestock Corp. or Jamesway Enterprises Ltd. assume any responsibility if the information supplied is not accurate.

CATTLE PICTURES - The images in this catalog are believed to be accurate representations of the individual animals. Transcon Livestock Corp. and Jamesway Enterprises Ltd. assume no responsibility if the images as received have been altered.

ANNOUNCEMENTS from the auction block will take precedence over the printed matter in the catalog. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY - A registration/recording certificate issued by the applicable breed association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

SHIPPING - Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

BREEDERS GUARANTEE - As per applicable Canadian Breed Association Breeding Guarantee guidelines. Copies are available at the sale settlement desk to be picked up by the buyer at any time. In no event shall the seller be responsible for reimbursing more than the purchase price.

EXCEPTION TO GUARANTEE - In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

HEALTH - It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Transcon Livestock Corp. assumes no responsibility for the health status of any animal in the sale.

ACCIDENTS - Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

TRANSCON LIVESTOCK CORP. IS AGENT ONLY - It is to be clearly understood that Transcon Livestock Corp. is only acting as a medium between buyer and seller and is not in any way responsible for any failure on the part of either party to live up to his obligations, neither does Transcon Livestock Corp. assume any financial obligations to collect or enforce collection of any monies between parties, and any legal action that may, in exceptional cases, be taken, must be between buyer and seller.

The Auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance prior to the sale with the owner or Sale Managers.

When Shane came to us to consign in the new version of Hoedown we had to say yes. To be involved with these other great consignors and working with the Transcon team is a great honor. These two heifers are our only two purebred heifers we had left so you know they were meant to be kept in our herd. CBW 5X has mother cow written all over her, wide topped and full of capacity. With 3 full sisters in production I'm positive she will bring in top calves every fall if it's heifers, bulls or steers. Bred early to the calving ease specialist Gold Mine buy with confidence.

WOW!! Is all I can say about this moderate framed easy doing heifer. Her dam is a full sister to the other bred we are offering in the sale. Everyday I try to pick holes in this heifer and cow family and I keep coming up empty handed because they have great feet and leg structure, with tons of capacity. And top it off with a picture perfect udders. Again bred early to Gold Mine. Please give me or Shane a call if you have and questions and hope to see you at the sale.
