

THE ADVANTAGE

Wednesday, 1:00 p.m.

March 23, 2011

Saskatoon Livestock Sales, Saskatoon, SK

Selling 62 Simmental & 8 Red Angus Bulls

Plus 11 Simmental Heifers

BULL & FEMALE SALE

Sales Management Comments

Welcome to the 2011 edition of "The Advantage Sale." As we move into the new year we are seeing the cattle industry starting to be rewarded for many tough years in the business, and with the real good cattle fetching premiums. The cycle has started to make a serious shift our way and now is the time to put in place your best tools to capitalize on these times, and the first tool to reach for is a herd sire that will propel you towards the top as you market your calves and as well add to your herd replacement daughters. A great bull is that key ingredient!

As you study the catalog you will find some of the freshest and most sought after genetics in the market today. This set of bulls come from a group of breeders who are focused on what the beef industry wants and demands -- a group of breeders that listen to their customers and care about the product they produce.

The bulls from Erixon Simmentals is a fabulous set of beef making machines. This group is a powerful set of stout, hairy bulls with loads of shape and style. The Erixon crew has assembled a set of bulls from the leading genetics available and pay enormous attention to how the bulls develop and perform. A super strong group of bulls is what to expect when you walk into this pen of bulls.

The bulls offered from Lazy Bar B Simmentals are a very solid set of well muscled bulls with loads of length, body, style, and again tons of hair. This group is very uniform from the first bull you see to the last one that comes around the corner. A very well balanced set of mostly brothers is what to expect when you appraise this very good group of bulls.

Storebo Farms has assembled a very nice group of bulls. Again, these bulls are very thick made, hairy bulls, that have great structure and move out extremely well. The boys really pay attention to the development of the bulls and is top priority to sell cattle that work and last long for their customers. This group of Simmental bulls will impress you for the uniformity and smoothness when you view this pen.

Storebo Farms also have a very uniform group of Red Angus bulls coming to Saskatoon. These bulls are structurally correct in their makeup with excellent hair coats. This set of bulls have many who are calving ease bulls as well as a few that would be more power Red Angus herd sires as well if that is what fits the bill for your operation.

As well as a great set of bulls to offer, Erixon Simmentals will be offering a group of replacement females as well. These open heifers offer anyone the chance to add some leading genetics to their programs from solid, strong producing, cow families to build from. The heifers are a very fancy, big volumed set with lots of hair and a big future in front of them. Look for these ladies sale day to have many friends as they are a great set of replacement females from a leading program.

The time is now to take "Advantage" of the beef business and prepare ourselves to be in the position to have the "Advantage" as we move forward into these positive times in the cattle industry. We invite you to Saskatoon March 23 to appraise these cattle and help put yourself in a position to have "The Advantage" moving forward. As always, the Transcon team will be available for any questions you may have regarding the cattle or the programs they come from. As well, if you are unable to attend, we would be happy to appraise and handle any of your absentee bids with the utmost professional manner.

For the Transcon Team - Shane Michelson

306/270-2893

Welcome to the Advantage Sale. This is our eighth year as consignors and we would like to take the opportunity to thank everyone for their support. Our bulls and heifers come to you out of the industry's leading A.I sires along with our herdsire. The bulls are out of strong cow families that have been consistent over the years. We take pride in our cattle and what we do. We are committed to the industry and are always striving to raise the best stock possible. All the bulls and heifers are on the Pfizer Gold program and have been treated with Ivomec. We would like to reserve the right to collect semen for in herd use only on any of the bulls we are offering for sale. Semen would be collected at our expense and the buyer's convenience. We look forward to meeting all our past, present and future customers. If you have any questions prior to sale day feel free to give us a call or visit the farm.

EPDS Spring 2011: 9.0 -0.4 40.3 70.4 6.1 26.9 6.7
You have to admire him for his overall balance and natural muscling ability. 201W is a December born, loose hided bull with loads of volume and hair. 4T is a full sister to our high selling bull in the 2009 sale; this Red Baron son sold to Boyncrest Stock Farm. His ¾ brother is 2X, and what a pair they make. Consistency runs in the family and this calf is no exception!

2. ERIXON X-FACTOR 2X

POLLED PUREBRED MALE PG728819 BOBE 2X 1 January 2010

 He is a soggy made, easy fleshing bull just like his dam. His dam is our Black Joker donor cow, who has done great things for us. Two full brothers are working for Jimmy Grant, Sunnyside Simmentals and a maternal brother for McVicar Stock Farm. Her natural calf is 21X.

26. ERIXON LAD 89X

Welcome to the Advantage Bull Sale!

After going through some tough times in this business we are about to enjoy the ride to the top. Congratulations to all of you for sticking with it; now enjoy! We at Lazy Bar-B Simmental are proud of our sale offerings and strive to produce a non pampered beef bull that can go on to get the job done. We are confident your next herd bull is in our pen. Thanks for attending and all the best in 2011.

Welcome to the 16th Advantage Sale. We are seeing the turnaround in the cattle industry happen; in last year's footnotes I said who expected 50 cent cows and this year they are hitting 70 cents. With bulls hitting 85-90 cents, now is the time to replace that old bull that really does not have one year left in him.

We have cut back on the number of bulls we are bringing to town. We are consigning 6 Simmental and 6 red Angus with 2 red Angus from Morland Acres. This is an honest set of bulls that will go out and work for you for many years.

Last year 90% of our bulls went to repeat customers; we feel we must be doing something right as they keep coming back.

Hope to see you at the sale or at our Open House March 8th or at the farm anytime.

Gunner had a rough start being a twin to a dead heifer and then his mother died when he was 2 days old. So he spent a week on the bottle, when one of our top Red Angus cows needed a calf. She took him instantly and he never looked back. Have a good look at him, I think you will like what you see.

 EPDS Spring 2011: BW: -1.4 WW: +17 YW: +33 MILK: +10
 72L just keeps producing the good ones. She has a son walking at RINGSTEAD RANCH and 71X would fit right in with him.

Transcon's "Sight Unseen" Purchasing Service

We always appreciate your attendance at our sales however, we realize you can't be everywhere we are. We are also very aware that because of the volume of bulls that we market, we are in a position to find you that bull (or bulls) for the best value and quality, in your budget.

Our service is conflict free as we don't own the cattle we sell and we are never paid incentive buying commissions or bonuses by the sellers. Your confidentiality is guaranteed.

Call any of our cellular phone numbers listed for more details. Or, go to our website: www.transconlivestock.com to view the list of 150 breeders who used this service.

In 2010 we purchased 300 head for over \$1,000,000 including 150 bulls for \$565,000!

 Here is a well made, smooth bull calf. His mother goes back to Red 30 Maestro of Storebo farms, who produced exceptional females with great feet and legs as well as low birth weights and high weaning and yearling weights. This bull will work on both heifers and your cow herd, with calving ease and production.

MORLAND ACRES ANGUS

Bryce, Janice, Grady and AJ Morland
 Box 32 Major, Sk.
 SOL 2HO
(306)834-2879 or cell (306)834-7336

Welcome to the 2011 Advantage bull sale. After a 1 year break, I am happy to bring bulls back to this sale. We have not been in the breed very long, but have been involved with the business for many years and wish to thank Storebo Farms for their support and help in establishing the Morland Acres Angus herd. The 2 bulls on offer are the top two in my herd and have gone through strict culling to be included in this sale.

Coffee is always on, drop in and see these bulls before the sale, and see you sale day!
