1 Lot Bert's NR Simmentals, Haywood, MB	\$12,000.00
1 Lot Circle M Farms, Birtle, MB	\$11,000.00

**Transcon Total on Order: \$67,500.00**

## Volume Buyers:

3 Lots Allemand Ranches, Shaunavon, SK	\$20,000.00
3 Lots Blooming Prairie, Ambrose, ND	\$18,000.00
3 Lots Tomda Enterprises, Mossbank, SK	\$19,750.00
3 Lots Glen, Melinda & Leon Aldentaler, Britton, SD	\$22,250.00

## Foreword

Welcome to LaBatte Simmentals 36th Annual Spring Bull & Female Sale on Friday, March 4th, 2016 at Johnstone Auction Mart, 4 miles west of Moose Jaw, SK on #1 Hwy. We would once again really like to thank all the bidders and buyers from our past sales for the continued support and the effort you make each year to attend our sale. It's been another amazing year for the livestock industry. Calf prices have been very good, cull cow and bull prices have remained strong, along with the replacement bred heifer sales. One of our good customers in Alberta contracted his calves this fall in late August for November delivery and received an amazing \$2204 for his steer calves. Wow! Many of these calves were sired by LaBatte bulls and out of Black Angus cows. The future remains bright for the cattle industry for a long time and, as I said before, the producers deserve a pat on the back for hanging in there in tough times and now are getting rewarded for their hard work, marketing skills and by using better genetics. The Simmental breed has become a big part of the commercial industry with its high maternal traits, milk and muscle, superior performance and carcass value.

We ourselves have just invested in the commercial industry as Brenda and myself, along with our son Lynlee and his wife Hayley, have purchased a ranch in the Gladmar area. It is all native prairie grass, beautiful rolling hills, peaceful and quiet, all in one block. It will have Angus cows and Simmental bulls grazing the land. We're pretty excited about this venture. We're not quitting the purebred business, we're diversifying and doing something we've always wanted to do and have. I believe this will be an added benefit as we can relate even more to our commercial customers.

Our bull sale offering this year, along with Meadow Acres Farms, will consist of about 95 bulls in total, 55 polled, thick, meaty, red bulls, 35 outstanding black bulls and a small number but high quality fullblood bulls. This might be the best and most consistent group ever. Ourselves and Meadow Acres Farms strive to produce thick, meaty, easy fleshing bulls with high maternal traits, structural soundness and good temperament. We're both always looking for new and exciting herdbulls to help produce quality bulls and females for our customers. The likes of Horizon, Muirheads Broker, Vegas, El Tigre and Royal Red have been purchased as high sellers out of sales to help advance our programs so we in turn can offer more consistent, high quality progeny for our commercial and purebred customers.

We're pleased again to have Meadow Acres Farms as a major guest consignor in our sale. As you know they purchased a large group of our cows in the fall of 2013 and have continued to breed and purchase quality cattle. They are enthusiastic, sincere, hard working and devoted family people. They have the same goals as us in trying to always be better in providing seedstock to the livestock industry.

If you are unable to attend the sale, give myself or Meadow Acres Farms or any of the sale staff a call to have the sale offering evaluated for you. We can be reached prior to and sale day at Johnstone Auction Mart 306 693-4715 or on our cell phones: Barry 306 815-7900 or Dustin & Kirsten 306 487-7510 or 7514. If you have any questions earlier give us a call on our cells or our home numbers: Barry 306 969-4820, Dustin & Kirsten 306 487-2557, Blair 306 487-2624. We welcome your visit to our farms anytime to see the bulls and heifers firsthand. The coffee pot is always on. Join us Thursday night at the Heritage Inn, in our hospitality room, for some socializing and laughs.

We look forward to seeing you on Friday, March 4th at Johnstone Auction Mart, Moose Jaw, SK. Please join us for a complimentary dinner prior to the sale and also after the sale for some socializing, refreshments and snacks. Best of luck in 2016 and hope to see you sale day.

Barry

P.S. All the grandkids are doing good. Can't believe how they're growing up. Brodyn, our oldest, is taller than Grandma now and he just turned twelve. Lynlee & Hayley's boys are kept busy with 4-H, both grain and beef, all three in hockey, all on different teams, so it keeps Mom and Dad busy driving up and down the road. Janalee & Tim's girls are busy too, karate, dance and skating, and they are excited to move into their new house where they'll have their own bedrooms. This year the kids have a bull in the sale, a red El Tigre son, so they're pumped about that. Grandma and Grandpa are pretty proud of our grandkids and we're so lucky to have them living so close.

## Livestock Insurance

Livestock Insurance Management - Loewen Agencies Ltd., Ceylon, SK 306 454-2411

## Photography

LaBatte Simmentals - Wilf Davis, Douglas, MB 204 834-2479    Meadow Acres - Chad Wilson 306 577-1256

## Health

All bulls will be scrotal measured and palpated. Bulls over 12 months of age at time of testing will be semen tested.  
**Bulls under 12 months of age at time of testing will be semen tested prior to delivery.** Weights will be posted sale day. All bulls and heifers were given CattleMaster 4, Somnustar PH and Fortress 7 in June and boosted with same in September. All were treated with Ivomec Pour-on in September and January.

## "Sight Unseen" Purchase Program

If you are unable to attend the sale but are interested in our bulls give Barry or Meadow Acres Farms a call and they will personally go over the bulls and your program with you. They will recommend which bulls they think would meet your satisfaction and refer you to one of their sale staff.

## In-Herd Semen

**LaBatte Simmentals & Meadow Acres Farms reserve the right to collect semen on any bull sold through this sale. The semen collection will be at the seller's expense and the buyer's convenience. Any semen collected will be for in herd use only.**

## Delivery

At the buyer's option and risk, LaBatte Simmentals and Meadow Acres Farms will take purchaser's bulls home, feed them under their management and deliver them FREE anywhere in the prairie provinces to your nearest central location. We will do our utmost to deliver them right to your yard. Delivery will take place between April and the middle of May. For bull buyers outside the prairie provinces, bulls will be delivered at a reasonable charge. The bulls are the property of the buyer as soon as they are sold. Therefore, buyers must insure their animals for the time they are at LaBatte and Meadow Acres Farms. The heifers will be delivered as soon as possible after the sale.

If you are unable to attend our sale, please join us by viewing the sale live online at [www.dlms.ca](http://www.dlms.ca). For more information and help getting approved for bidding, contact Mark Shologan 780 699-5082.

## Guarantee

All animals will carry the standard breeding guarantee as specified by the Canadian Simmental Association. At no time shall the seller's liability exceed the purchase price of the animal.

## Video

Video of sale bulls will be available. For LaBatte Simmentals contact Barry, and for Meadow-Acres Farms go to [www.meadowacresfarms.com](http://www.meadowacresfarms.com) or [www.dlms.ca](http://www.dlms.ca) to view.

## Terms & Conditions

The sale will be conducted under the standard Johnstone Auction Mart Ltd. Terms & Conditions.

## Accidents

Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

This powerful son of Horizon was the high selling bull in our 34th annual sale at \$59,000 to X-T Simmentals at Eastend, SK. When he was purchased by X-T, whose calving and breeding season is much later than ours, we were fortunate to be able to purchase the April and May walking rights to Red Zone so he could walk in both programs.

He was always a favorite calf growing up and continued to be a favorite right up to sale time. He was long, deep, very thick butted, had lots of top and a great hair coat. He was structurally very sound, had large testicles and was very stylish. We always thought he had the potential to be a tremendous herdsire. And that he has become. We couldn't be more pleased with his first calf crop. His bulls are powerful, deep sided, loose made, thick butted and sound. His heifer calves are some of the top replacements in the heifer pen. We are very proud of the following Red Zone sons we offer in this year's bull sale.

This Homo Polled, dark red, feature Red Zone son is as deep and soggy as they come. Full of meat and muscle, really loose made, big testicles and mothered by an excellent cow going back to the Pocahontas 68M cow family. Cow families are so important and the Pocahontas 68M family is one of our very best, if not the best. 78C's mother is a really deep, broody, easy fleshing Red Force cow with an excellent udder. In our last year's bull sale a daughter of hers sold to Amber Haugland of Blooming Prairie Simmentals, Ambrose, North Dakota. We think this Red Zone son has a lot of potential, has a great mother, moderate birth weight and loads of performance.

**IPU 225X RED ZONE 74C**

Again, a real feature Red Zone son out of a beautifully uddered Revolution cow going back to our Pocahontas 105L cow family, who also is one of our very best cow families. Both 105L and 68M are still going strong at age fifteen and fourteen and are both getting ready to be flushed again. They are both sired by Red Chief whose daughters were second to none. 78C's dam has three daughters in our herd and will be a main fixture in our herd for many years. Red Zone 74C has been a standout calf since he was a baby and has continued to impress. He's super thick with lots of top, muscle shape, structural correctness and is Homo Polled by parentage. We think this Red Zone son has herdbull written all over him.

This Homo Polled bull is a very well balanced Red Zone son that we really are high on. He is mothered by a very good Liner 56U daughter who has a great udder and just came off raising twins before 37C. These Liner 56U daughters are making excellent females and are rivaling the Red Chief females as the best we've ever had walking our pastures. They're pear shaped, easy doing, feminine and have excellent, excellent udders. 37C is a bull you'll want to look up sale day. He is super stout, has lots of top and muscle and is very attractive.

A dark red Red Zone son who is out of a really good Red Ace cow of Hayley and Lynlee's. She already has two good bulls that have gone through our bull sale, one to Prairie Sky Land & Cattle and one to LaCasse Farms, Kincaid, SK. A three quarter sister to 20C sold in the 2015 Simmsational sale to Robb Farms of Maidstone, SK. This calf is moderate, very thick made, stylish, has lots of spring of rib and is mothered by a really good uddered, good cow. He is Homo Polled also.

Well, you can't make them any darker red than this guy. He's a real eye catcher! He's very thick made, has lots of top, big testicles, great hair coat, and has herdbull written all over him. He is mothered by one of our very favorite cows, an IPU T-Bone 13R daughter out of the great Full Fleck Anchor "T" Barbi cow. 86U is solid dark red, has a perfect udder, is easy doing and very attractive. She has raised a herdbull for Blackwell Bros at Assiniboia, SK and raised our high selling red heifer at the 2013 Simmsational selling to Ashworth Farm & Ranch. We've retained her 2014 heifer in our herd to establish this cow family even further. We think 64C would sire some outstanding bulls, steers and replacement heifers, and his Fleck influence would be an added bonus.

A good, rugged Red Zone son out of a daughter of Pocahontas 68M. We have four full sisters sired by Accelerator that are all really good and very similar in type. They are a result of flushing Pocahontas 68M to Accelerator. They're high producing mothers that have raised some of our high dollar cattle. 70C is the kind that will make his offspring push the scales down as they will have lots of performance, thickness and style. He's a three quarter brother to Lot 1 and he too is Homo Polled.

This is a very good bull! Don't think just because he isn't pictured that he's not as good as some of the others. We haven't got time to picture them all as Wilf Davis, our picture taker, lives in Douglas, MB and only has so many days he can be here. 96C is a very well balanced, moderate, thick made calf out of a really good uddered Liner 56U daughter. He has a small birth weight, is Homo Polled by parentage and is worth looking up on sale day.

This calf has been one of my favorites and is out of one of my favorite cows that goes back, again, to Pocahontas 68M. He's a full brother to the lot 6 bull by pedigree as both are sired by Red Zone and out of full sisters. This guy is very deep ribbed, thick quartered, has big testicles and is just plain good. Remember, he is a middle of March calf. His mother calved January 20th this year and has another good looking bull calf at her side. Homo polled.

A different pedigreed, thick made Royal Red son out of an awesome Liner 56U daughter. Kelly Oberle and myself purchased this cow out of the Blacksand dispersal in December 2014 where she was one of the high sellers. We thought so much of this cow we also purchased her heifer calf too. This is the start of a new and exciting cow family. Shania 16Y is just the right size, pear shaped, easy fleshing, has a great temperament and a beautiful udder. The calf she was carrying is Royal Red 4C. He's been very good from a young age. Kelly calved Shania out and she later came here in May. 4C just kept on catching your eye all summer and fall. He's really thick made, has big testicles, is huge quartered, very nice fronted and has herdbull written all over him. Homo Polled by parentage.

35C is a thick made bull sired by the old master, Horizon. What a job Horizon has done in our program. We have never used a red bull that consistently puts in as much thickness, meat and muscle mass as he does. His daughters are making moderate, easy fleshing cows that milk, are broody and re-breed. The only reason we're not using Horizon in our program as much anymore is because his outstanding son, IPU Red Zone 16A, is carrying on his legacy. We believe that every good bull should sire a bull as good as or better than himself and I think 16A is that bull. 35C is moderate and thick made with lots of hair and is also Homo Polled.

This is a really good, thick, dark red Horizon son out of a high producing Beef Maker cow going back to our Noremec 16M cow family. This young cow will already have sent three bulls into this sale. Her first son to Rae Tutor and Robin Frerotte at Meyronne, her second, a great blaze face Chakota son to the Aldentalers in South Dakota and now Horizon 39C. Her only heifer we sold privately as a bred heifer to Jean-Francois Leblond of Armagh, QC this fall. She was an outstanding blaze face Chakota daughter that had brood cow written all over her. 39C is sired by the legend, Horizon, and mothered by a powerful cow.

IPU Ms Red Lacey 206S just keeps producing the good ones. This Redskin sired bull is dark red, soggy, very deep ribbed and is excellent tempered. The Lacey 206S cow has done quite a job for us. She has herdbulls working at Foley Simmentals, SK, MI Simmentals, AB, Berndt Ranch, ND and was the mother of our high selling red El Tigre son, IPU Redneck 92B, in last year's sale that was purchased by Mandan Lake Simmentals of Center, ND for \$50,000. In December, at the 2015 Simmsational sale, two full sisters to Redneck were high sellers, selling to Robb Farms of Maidstone, SK and Ultra Livestock, Carstairs, AB. With the power of his mother and being sired by a grandson of Red Chief, this bull has a lot to offer.

# **IPU EL TIGRE 79C**

Well, the grandkids have another animal in the sale again, this year a good red El Tigre bull out of their Boon cow Grandma & Grandpa purchased for them out of Simmsational a few years back. In the past the Lazy Bar-B 26W cow has sent three heifers through our sale for the grandkids, selling to Ike Wisse, BC, Downey Farms, MB and Jeff Weal, SK. The kids would like to thank them again for their purchases. The revenue from their calves goes into a savings account (controlled by Grandpa) to help further their education once out of school. The El Tigre offspring are something special we think and to add his genetics into the red gene pool is significant. A good, honest calf that would sire some outstanding replacement heifers.

## IPU SHERIFF 15C

These next four bulls we think are real heifer pen prospect bulls. Three sired by Kuntz Sheriff and one by Red Western. We couldn't be happier with the Sheriff calves! He's probably the easiest calving Simmental bull we've ever used. If I remember right, we hand pulled one calf from him and the rest were born unassisted, all out of first calf heifers. They started small but grew through the summer and were quite impressive by fall. The 15C bull has calving ease on both sides of his pedigree, being out of a red blaze face Stubby daughter and sired by Sheriff. He's dark red, great haired, very balanced and thick. We think this bull has quite a future ahead of him. Homo Polled.

We are pretty excited about this bull. Sired by the calving ease Kuntz Sheriff bull and out of an outstanding Liner 56U daughter going back to the Black Desi W9154 cow family. 25C's mother was my pick of our first calf two year olds this past summer. I love this cow. Super uddered, solid red, pear shaped and so broody. In turn, her mother, the W9154 cow, is one of our favorite black cows and will be entering our transplant program this spring. We purchased her out of the Remington Cattle Company dispersal where she was one of the high selling females. She herself was purchased by Remington from the great Altenburg Simmental Ranch as the pick of their heifer calves. We have three young females in the herd and they're all good. The Deputy we believe is truly an outstanding young herdsire prospect, starting with an 84 lb birth weight, born unassisted, an actual weaning weight of 930 lbs and an adjusted weaning weight of 878 lbs. He's long, thick, deep quartered, strong topped and take a look at his EPDs. He's above average in every trait on the chart. This **feature** Homo Polled bull we believe has a lot to offer, whether it be selling semen, semen packs or just walking your pasture.

*IPU 206S El Tigre 92B - 2015 sale*

*IPU El Tigre 28B - 2015 sale*

*IPU 206S El Tigress 113B - 2015 Simmsational*

### El Tigre in October 2014

Without question El Tigre is one of the greatest herdbulls walking our pastures. He, along with Springcreek Liner 56U, have really put our black program in forward motion. We've never used a black bull that puts muscle mass and rear quarter in his progeny like he does. His sons are so consistent in type and kind.

His first sons that were sold in last year's sale were the highlights of our sale and were readily sought after. His sons again this year are our highlight black feature bulls, again so consistent with muscle, thickness, big testicles, great feet and hair coat.

Now on to his daughters – we are really happy with them! It started at last year's bull sale when a daughter of his topped our heifer division, selling for \$18,000 to Crossroad Farms and at Simmsational 2015 in December, an outstanding, powerful, black bred heifer of El Tigre fetched \$30,000, selling to Ultra Livestock. We have calved out a few heifers of his as I write this in January of 2016 and they've calved easy, have beautiful udders and are great mamas.

The next opportunity to purchase his sons and daughters will be on Friday, March 4th at Johnstone Auction Mart.

**Don't miss them, they deserve serious attention.**

## IPU TWO IN A MILLION 101C

IPU Two In A Million 101C is a full brother to IPU One In A Million that was to be our feature black bull in last year's sale that held the prestigious CSA # 1000000. Unfortunately, One In A Million got hurt a couple of weeks before our sale and didn't recover soon enough to take to the sale. After a slow recovery he was later sold mid-summer privately to X-T Simmentals where he will be walking the beautiful hills at Eastend, SK. We also had some more bad luck this spring as we lost the mother to these two prestigious bulls. Ultra Temptress Clair 12R was one of our feature black cows in our donor program and was an excellent producer. She was deep, long, had a good udder and was different pedigreed. Fortunately we also had three transplant full sisters to Two In A Million born this spring to carry on the legacy of Clair. 101C is much like his brother; long bodied, big topped, great haircoat and when you get behind him lots of width and quarter. We think he is a herdbull and like his brother he's Homo Polled and Hetero Black.

\$30,000.00

**24**

## IPU EL TIGRE 73C

This is a very impressive El Tigre son out of a good Extra Effort cow who is also the mother of IPU Code Red 53Y. Code Red is a bull we never used near enough in our program, always using him as a cleanup bull after A.I. This is going to change as he is going to get some early cows this upcoming year through A.I. as he now graces the pastures of X-T Simmentals. El Tigre 73C's mother is also the dam of a great Horizon heifer that sold as our high selling red open female in last year's sale to Ferme Gagnon in Cheneville, QC for \$13,500. 73C, in his own right, is a very good calf. He's stylish, thick, deep quartered, has good hair, is very loose made and has a good big foot on him. He's been a favorite in the bull pen all winter long by many visitors. He's a herdbull with a lot of potential. Homo Polled and Hetero Black.

**IPU EL TIGRE 94C**

A powerful El Tigre son that will be easy to find sale day. He's been impressive right from a baby calf. He's so loose made, deep sided, wide topped, has a big old butt on him and has a great haircoat. His young dam has produced very well at a young age. Her first calf, a heifer, sold in last year's sale as a top seller to Hilltop Simmentals, the Anwenders at Radville, SK. And now a phenomenal bull prospect and is in the calving pen in January ready to have a full brother or sister to 94C. We think he is an outstanding individual and a true herdsire prospect. He DNA'd Homo Polled and Hetero Black.

A good, thick made El Tigre son that is a twin to another bull calf. He's moderate framed, deep and thick. His young Poker Face dam has an excellent udder and has a full brother on the ground again this year. Pretty good for a young female to have twins one year and breed right back for an early calf again this year. He too DNA'd Homo Polled and Hetero Black.

A full brother to last year's high selling black bull, El Tigre 28B, selling to Clifford Land & Cattle and Soderglen Ranches for \$32,000. He was quite a calf and a lot of people were very interested in him. His SAV Net Worth mother has been a great producer, having a daughter working at Hilltop Simmentals as well. This deep ribbed, loose made, El Tigre three quarter blood will be one you'll want to look up sale day.

Well, we could write a book on the mother of this bull but I'll try not to. She's a red Liner 56U daughter out of the great Pocahontas 52N cow who is a full sister to Pocahontas 68M. When we sold a large group of cows to Meadow Acres I had first pick and it was 2Y. She's a beautiful red, moderate 56U female with lots of capacity and middle, is excellent uddered and just a true brood cow. Her first calf, a black Shear Force son, is working in the herds of Maxwell Simmentals and Clifford Land & Cattle in Alberta and last year her cherry dark red Bootlegger son, IPU 2Y Dillinger 80B, sold for \$32,000 to Kinn Simmentals in North Dakota. She was held open this year so we could flush her and she produced 10 #1 embryos on her first flush and is getting ready to flush again. El Tigre 113C is a middle of February bull that is moderate in his makeup, very deep and soggy, big quartered, wide topped, has great hair and a super temperament. He's always been one of our real favorites, maybe Wade's favorite. We feel this bull has a lot to offer the beef industry, sired by the great El Tigre and mothered by one of the best, Pocahontas 2Y.

This is a young March bull that I personally really like. If he was a month and a half older he might be the standout of the pen. He was ranked 2nd to all his contemporaries for adj weaning weight which is a whopping 920 lbs. His mother is a black blaze face TNT Tanker female that is a tank, good uddered and is out of a black blaze half Fleck cow. This El Tigre son reminds me of his dad. He's super deep, loose hided, very thick, big topped, big footed and has good testicles and a great disposition. Don't overlook him for his age, he's one of the best and is Homo Polled by parentage.

Emry, Jory & Jenna at cross country meet

A good, February El Tigre son that is a full brother to a bull we sold in last year's sale to Corey Pettersen at Gladmar, SK. Corey runs a great set of mainly black cows and has purchased over twenty bulls from us over the years. He had a large group of bred heifers for sale after the New Year, so if you're looking for some excellent replacement heifers give him a call at 306 869-7803 and see if he still has them. 106C is very typical of the El Tigre bulls. He too is thick made, deep and loose hidied.

\$6,500.00

Radium 26C is a dark cherry red bull with big goggles, great hair, lots of depth, thickness and style. We purchased his mother out of the Source sale at Lloydminster from the Harlands. She's a really good uddered Hemi daughter with lots of length and substance. 26C's sire, Radium, is really one of the top sires in the breed. He just kind of puts it all together. He's a calving ease specialist, his calves have lots of growth and performance and his daughters make excellent cows. We think 26C has the presence of a real herdbull. Non-dilutor.

Another really good fullblood bull out of a beautiful, high producing Laredo cow. She has produced five bulls in a row now, four of them have come to our annual bull sale, the fifth was sold off the farm. They've all had birth weights of under 100 lbs and all have been excellent bulls. They are working at the Graveley's in Montana, Butch Haugland's in North Dakota and Bangsund Farms in Saskatchewan. The sire of this bull was the high seller at Westgold's sale in 2013. He was purchased by Red Willow Ranch, the Tylers, for \$47,500. We were fortunate enough to purchase a small package of semen off him and have been very pleased with his calves as have Red Willow. With the beautiful uddered, productive, red goggle eye Laredo cow as his dam and Westgold Standout as his sire we believe 85C is going to make a top notch herdbull. Non-dilutor.

Full Fleckvieh. Dirty Harry 5C is a moderate, thick made, wide topped Dirty Harry son out of a tremendous cow that Anchor D Ranch and ourselves purchased out of the Prospect Hill dispersal for \$19,500. FGAF Precious Thing 402T is blood red, has huge goggles and is maybe the deepest, thickest Fleckvieh cow I have ever seen. And she is proven as Prospect Hill sold a \$22,000 Maestro heifer to Wells' Crossing out of her and an embryo out of her and LFE Justified sold in Lewis Farms last female sale by Lenny Mark to Ron Noble at Lloydminster, AB for \$30,000. We flushed her this spring and fall to Black Gold Epic and PRL Houston. I'm trying to talk Anchor D into flushing her to a homo polled and homo black bull to create a new and exciting bloodline. What a foundation cow this would be in creating a new cow family in the black Simmental world. 5C has a great sire in Sibelle Dirty Harry and dam in Precious Thing. His calves will be stout with a lot of capacity. He's Full Fleck and DNA tested a non-dilutor.

On behalf of all of us at Meadow Acres, welcome to this year's bull sale. This will be our third year as part of the sale and we are extremely proud of the set of bulls we have compiled this year. We can confidently say this is the best yet!

As you likely know, we made a huge investment and acquired a large portion of the LaBatte herd in 2013 and have not looked back since. We are honored to be a part of this sale that has such a strong reputation for quality Simmental genetics that Barry has built over the last 36 years. We believe that we have operations that align nicely, with our cowherd base but also our values and appreciation and love of the cattle business.

This offering represents our second calf crop from those cows and we are very pleased in the direction our program is headed. Our operation has always been based on cow families and a strong cowherd that can produce the "right-kind" for ourselves and our customers. We are constantly looking for the best bulls to advance our program and sometimes we find them in our own pen; thanks to the cooperation of the buyers for allowing us to do so, we look forward to doing this again this year. We believe that great herd sires are needed to offer you a great set of bulls each year, and we are confident we have done this and we will continue to do this down the road. The hunt for our next great herd sire never ends!

Bulls are all semen tested and guaranteed, as well as color and polled tested prior to sale day. Bulls are developed on a high roughage based TMR to ensure longevity and soundness. We have had great success with this in the past and our customers are very happy with their bulls holding their condition and not melting away. We offer delivery, in most cases right to your yard and we will complete paperwork required for export, if required. Bulls are also on a complete herd health program.

Your bull purchase is a large investment and we want to make sure that we make the time to talk with you and help determine the bull that is right for you. Please, feel free to contact us any time prior to the sale to discuss your needs with us. We see these bulls every day and are confident that we can find the right one to suit your needs. Even better, if you can make the time, come to the farm and go through the pen, see the bulls at home in their own environment, and have the ability to see the mothers as well.

We are very excited to welcome DLMS on board this year and they will be broadcasting our sale online. We will also have all of our bulls on offer videoed and available on our website, [www.meadowacresfarms.com](http://www.meadowacresfarms.com), and on [www.dlms.ca](http://www.dlms.ca).

We would like to thank all of our buyers from previous years. Without you, none of this would be possible! We invite you to join us Thursday evening for some hospitality at the Heritage Inn as well as for lunch Friday at Johnstone's. We look forward to catching up with all of you in Moose Jaw on March 4th!

## MAF R Horizon 7Y

There is no doubt that Horizon is the most consistent breeding bull we have ever used. We are so humbled to have him carry the MAF prefix. His sons are absolutely peas in a pod and we really feel that this year's offering of Horizon sons is very special. They are all so easy fleshing, hairy and thick. It's almost hard to believe how consistent a sire group can be.

Now with the second set of daughters calving out, there is no doubt they are going to make a huge impact on the breed as well. Just like their brothers they are extremely easy fleshing and never really lose their rib or softness, even as two year olds. All while raising a big calf and having truly some of the best udders you can find. They are absolutely fantastic cows!

Do not miss out on your chance to invest in a son of one of the best red bulls the breed has seen.

Hetero Polled. We believe that this guy is our most complete Horizon son to date. That is a bold statement, but when you see this bull you have to appreciate him for his huge quarter, width of top, big round rib, awesome hair coat and sound structure. From the day this guy was born we knew we had a very special individual and he has not disappointed as he has matured. He is a very proud individual and reminds us in many ways of Horizon from a young age, as he is early maturing and has large testicles. We are excited to use this bull within our own herd and he has already put up in-herd semen for us. A very good, sound made Shear Force daughter that is well balanced with an exceptional udder backs him. If you have been looking for a Horizon son to add to your herd bull battery, to produce bulls that are widely accepted by cattlemen and extremely easy-doing, look no further!

Homo polled. Maternal sister retained in our herd. Another Royal Red, 20C is a long bodied, thick butted bull. He has lots of rib shape and extension through his front end. When we purchased Royal Red, we felt he would be a strong complement to Horizon and this bull exemplifies that. His dam traces back to the Pocahontas 52N cow as well. You will see that cow mentioned in footnotes and many pedigrees throughout this catalog.

## MAF MR 76C

**POLLED PUREBRED MALE**  
 PGT1152295 FBL 76C 16 January 2015

Homo Polled. This guy is a powerhouse! Deep made, soggy bull with all kinds of good about him. His Red Label dam, is a member of our donor program and a very powerful cow with nice udder and lots of body. She has been successfully flushed numerous times and had 2 full brothers, including MAF Cowtown 27B, sold last year to Diamond K Cattle Co., Maple Creek, SK. Two full sisters have sold to Sunny Valley Simmentals and Swan Lake Farms. We have another full sister in the replacement pen to watch for this winter as well as another that just calved out, she has a beautiful udder and doing a nice job.

**62**

Homo polled. 83C is dark, dark red, just like his Crosby mother. He is stylish, long bodied and thick, smooth made and clean in his lines. He is from the IPU Pocahontas 68M cow family from which we have a number of daughters in our herd and they just work. The pedigree of this guy is maternally stacked, with Pocahontas and KOP Crosby. This cross works well, and last year we sold a full brother to Storebo Farms, Beechy, SK, and they are very pleased with him.

Homo polled. This guy will have a lot of friends on sale day for sure. He is a bull that is very much what we have come to expect from the Horizon progeny: very easy doing, easy fleshing, thick, wide topped, hairy and nice to look at. He has the muscle pattern you wish that they all had. We truly believe that these Horizons are going to be the type of cattle more of our customers demand, extremely functional no matter what type of operation you run. We are yet to find a bull that brings so much consistency to his calves and we do not ever make many steers out of the Horizons. Imagine the pride you would have with a pen full of calves off this guy; you can be confident in keeping replacement females and happy all the way to the bank with your steer cheque. 104C's dam is a cow from Maxwell Simmentals, an Accelerator 222U daughter, with some Fleck influence in her pedigree. A big bodied female that does a good job and has a daughter also retained in our herd.

POLLED PUREBRED MALE

PG1152328 FBL 107C 20 January 2015

Homo Polled. If you have been reading my footnotes, you likely think I am a broken record, but if you analyze these Horizons they are a very consistent sire group! A tank of a bull here, deep and soft made with good testicular development. 107C is out of one of our favorite cows here; an Exciter female that is moderate in size, big bodied, very sound and to top it off has a great udder. Maternal sister retained that will follow in her dam's footsteps, and a maternal brother sold last year to 5M Cattle, Moose Jaw, SK.

POLLED PUREBRED MALE

PG1152329 FBL 108C 22 January 2015

Homo Polled. Here is a bull that the homework is done on; he is a maternal brother to IPU Red Western that sold through this sale to McMillen's & Ashworth's and has gone on to sire bulls and females both highly accepted by commercial breeders and purebred breeders alike. A deep, soft made bull that is wide topped and has lots of muscle, he has always been a standout and noticed by visitors. He also has a maternal brother sold in 2013 to Perkin Land & Cattle, MB and we sold a maternal sister to Maxwell Simmentals, AB in 2014.

Homo polled. This is our only Sheriff son in the offering; we wish we had more like this guy! As you will see from Barry's offering these Sheriff bulls are the real deal. They start at a nice size, this guy at 80 lbs, and develop into very functional bulls. He has a lot of grow to him, weighing currently right at the pen average. 159C is long bodied, deep bodied, smooth made with adequate thickness for a calving ease type bull. An extremely well put together bull that is hard to fault. His dam is a hard working Accelerator first calver, that is a direct daughter of IPU Shamrock 120L, who was bred by Traxinger Simmentals, Claremont, SD. 120L has produced many solid producing females and bulls. We ourselves have 10 females working in our herd from this cow family, many of them personal favorites. This guy is a bull you can't go wrong on, he offers calving ease, growth and maternal strengths.

## 80 MAF MR 3C

BLACK POLLED PUREBRED MALE  
BPG1152215 FBL 3C 1 January 2015

Homo Polled, Hetero Black. A really neat bull to start off our black offering, this guy is much more than a cool looking face! He is out of our first Horizon daughter to calve out, a red blaze cow that milks really well and has a nice udder. A full sister to her is working at Sunny Valley Simmentals. We are very proud of the Horizon daughters in production and when they can raise bulls like this their first crack at it, how can't you be?! This bull is thick and wide, but has a lot of extension through his front end to really give him a lot of eye appeal. Another bull that we are excited to use in our own program!

Homo Polled, Hetero Black. Twin. In fact 27 & 28 are from a single embryo that split after being implanted in the recipient cow, so we were surprised when there were two! There are not very many black Horizon sons on offer, so if you like the type, but like them black, these two might be the answer for you! They are thick, with lots of middle to them. Out of a black Red Quorum cow that we sold a son of last year to Dennis Edwards, Craik, SK.

OUT

Hetero Polled, Hetero Black. This is a powerful bull with a real herd bull look to him. He is packed full of natural thickness, lots of middle, smooth made and strong topped. We have used Cobra for the last three years on our heifers and have had great results. This year the bulls offer a lot of power, and we believe this has a lot to do with the power of the young females we have in our herd. Out of a beautiful uddered first calver, who had a full brother sell in last year's sale to Jason & Stephanie Fradette, Lake Alma, SK.

Homo Polled, Hetero Black. The natural calf of 186W, a March 21st bull, he is the youngest bull in the offering, but there is a lot to admire in this guy. An attractive, deep flanked, thick made bull, he is a full brother to 198C and maternal brother to 185C.

**\$4,750.00****NUG ROYAL RED 324A**

Royal Red has done a wonderful job here and we are very excited to be offering his first set of bulls. They are extremely attractive and easy to look at while maintaining a lot of thickness. As good as we think these sons are, the daughters will absolutely make your mouth water! If you want a bull that is going to leave you some very, very valuable females you need to look hard at these Royal Red bulls. A true herd bull, in our minds, needs to leave both exceptional bulls and females and Royal Red has definitely not disappointed!

LaBatte Simmentals will be consigning 18 open replacement heifers in this year's sale, including 11 black and 7 red heifers. We think this is a really good group again this year and some of the breed's top sires are represented – Red Zone, Absolute, Horizon, Cobra, Muirheads Broker, Captain Morgan and El Tigre. If you have any questions on these heifers before the sale be sure to give us a call and we will be glad to go over them with you or, better yet, come and have a look at the farm before the sale. We would be glad to show you them and their brothers in the bull pen.

BW: 88. 205 day: 718. EPDs: 8.3 4.4 64.2 101.7 12.1 58.9 26.7

Another good Cobra heifer out of a first calving Liner 56U daughter going back to our Black Bodybuilder 19R cow. Her sire, Cobra, we believe is one of the most underrated black Simmental bulls there is. He is a calving ease specialist for sure but his progeny have some growth and substance to them, they have beautiful haircoats, the females are excellent and his bulls are very easy to sell with their low birth weights and plenty of performance. In our 2014 Simmsational sale we sold a Poker Face heifer for \$9,000 bred to Cobra, to R Plus Simmentals and Frehlick Farms, and she went on to produce one of the feature bulls to sell last spring as her Cobra son fetched \$50,000. We believe this heifer too is going to be an impressive cow and she is Homo Polled by parentage.

## IPU-245Z-BLK PASHMENIA 40C

BLACK POLLED PUREBRED FEMALE  
BPG1160177 IPU 40C 18 January 2015

An outstanding black Horizon heifer out of the dam that raised our high selling open heifer in last year's bull and heifer sale. She was an El Tigre daughter and sold to Crossroad Farm for \$18,000. She went directly into their donor program. 40C's grandma is one of the best producing black cows we have ever owned. She was part Fleckvieh, a black baldy and produced many high selling bulls for us. Now her daughter, Pashmenia 245Z, a young Sweet Meat cow is producing just like her. This black Horizon daughter is so easy fleshing and soggy. The old saying "I just feed them straw and snowballs" could apply to this heifer. An outstanding black heifer with a little different pedigree in the black genetic pool.

\$19,000.00

## IPU-56U-MS-MORGAN-41C

BLACK POLLED PUREBRED FEMALE  
BPG1160597 IPU 41C 18 January 2015

This is another feature heifer. Sired by the \$190,000 Captain Morgan and mothered by a beautifully made Liner 56U daughter we purchased from Sun Rise Simmentals for \$19,000 at the Double Bar D female sale in December 2014. Kelly Oberle of Circle 7 Ranch saw her a couple of days later at Simmsational and had to have half of her. She is one impressive young cow, so broody, easy fleshing and has a beautiful udder. We think her Captain Morgan daughter is going to be just like her. She's moderate framed, very deep bodied and pear shaped and, as a bonus, she's Homo Polled.

LaBatte Simmentals and Circle 7 Ranch

The first Muirheads Broker 221Z heifer to ever be offered for sale. Her mother, a really solid Big Sky cow who's just turning 14 years old, is just going to calve this January again. She still looks like a 7 or 8 year old, udder still good and body condition great. This heifer will make a really good cow, have longevity and produce. We're pretty excited to get these Broker 221Z's into production as we think they're going to make excellent females.

Muirheads Broker 221Z

Another granddaughter of the great NUG Pashmenia 403P cow but this one is colored like her. The dam of 76C, a Full Throttle daughter, is actually a first calf heifer as she was born in December 2012. She is also a black baldy. This Cobra daughter is long, has lots of depth of body, loads of hair and is structurally very good. She's three generations black baldy and out of a great cow family.

This good Cobra heifer is owned by Wade Lund, our herdsman, that has been with us now for fourteen or fifteen years. Wade has four or five cows here with us and the mother of this good heifer he purchased from Sandra Jeffery out of the 2013 Simmsational sale as an open heifer. She is a very good black baldy Upgrade female that has a great udder. The Cobra females are so consistent in type and quality. These four Cobra heifers would really make a nice package of females to purchase if you were looking to add some numbers to your herd. 97C, like her sisters, is great haired, long bodied, deep and feminine.

This is a very good El Tigre heifer. Mothered again by an excellent uddered Black Tank 1U female. In my footnotes you hear me comment lots about beautiful and great udders but I think this is so important to us as purebred breeders and to the commercial bull buyers we sell bulls to. With the commercial operations getting bigger and bigger with less help, they haven't got time to monkey around getting calves sucking on big or long teated cows. That's why I think it is so important for us purebred breeders to supply our commercial customers with bulls out of high quality, good uddered females. 110C will be one of these females. She's also a great heifer, deep bodied, beautiful haircoat, angular and broody.

## IPU ESSENCE'S ZOE 89C

POLLED PUREBRED FEMALE

PG1160226 IPU 89C 2 February 2015

A feature red blaze face Red Zone heifer that's going to make a great cow. Her mother, Essence 118U, has sent three heifers in a row to our spring bull and female sales, all blaze faced. The first two are residing at Six Mile Red Angus and Blooming Prairie Simmentals, Amber Haugland in North Dakota. This heifer is really nice made, thick, deep, broody, has loads of capacity and is very stylish. She's three generations baldy as her mother and grandmother were both blaze faced too. We think she's the kind that can raise those herdbulls for both the commercial man and the purebred breeder.

A good Red Zone heifer going back to the Noremec cow family. Noremec 16M was probably the deepest, thickest cow to ever walk our pastures and was the mother to IPU Revolution 172R. He was the bull that High Country Cattle and Beechinor Bros purchased in our bull sale and they showed him very successfully but even better, he bred true to his dam as his females are absolutely awesome. 111C's mother is a full sister to him. A three quarter sister sold in last year's sale to Vince Stevenson and Cowtrax Cattle Co. This heifer is very much like her, easy fleshing, deep bodied and broody.
