WELCOME FROM TRANSCON,
If the expression “first impressions mean everything” is true at all, the Ungers at U2 Ranch have certainly got my attention! Viewing this set of bulls in January was one of the most impressive offerings, maybe even that I’ve ever seen, as a purebred sale manager in my 22 year tenure with Transcon Livestock Corp.!!! Not just the sheer mass and middle these bulls attain, but the solid hoof structure that is so apparent keeps elevating the impressiveness. It goes on & on with how many high end bulls are available here; there is an overwhelming consistency in this group. The numerous performance Angus bulls here has to rival any breeding program in the country and likely on this continent.

There are many bulls that are mothered by “first calvers” and they don’t take a back seat. It’s quite a testament to the quality of the youth in the herd. To be able to find bulls that can be used for Angus calving ease and yet command such a payweight is “outside the box”!

Don’t second guess yourself if you make a long, long, long list of bulls here that you like and can bid on, it is reality!

On behalf of the Ungers, we invite you to their bull sale hosted at the ranch. You will have the experience of seeing as many good animals in one place as anywhere. If you aren’t able to attend, please call our cell phones to assist you with your bidding needs. Our order buying services are industry leading and highly trusted.

For the U2 Ranch crew,
Jaymes E. (Jay) Good

TRANSCON LIVESTOCK
TRANSCONLIVESTOCK.COM

From Coaldale go approximately five miles east on Hwy 3 and turn north on road 19-2. Go approximately eight miles to ranch sign and wagon at the entrance. Follow the road to the right, down into the ranch and sale facility.
Welcome to our 22nd Annual Bull Sale. We would like to sincerely thank our loyal customers, friends and family for their continued support and trust in our program. **We are grateful for your interest!**

Our focus has remained the same, to continually improve our genetics and produce sound, high quality bulls in volume that will positively influence the bottom line for the commercial cattlemen. This commitment towards continual improvement has led us to a few changes to 2018. Last Fall we constructed new larger bull pens forcing the bulls to walk and receive more exercise to improve pasture readiness. Secondly, we changed our bull ration by increasing the roughage and decreasing the energy in the TMR. These two factors have resulted in a fresher pen of breeding bulls that have enough condition to properly display their natural thickness yet they have plenty of room to grow and see their best days ahead of them.

Early visitors have unanimously agreed that this years set of bulls have raised the bar for consistency and uniformity! This combined with our large sire groups on offer allow you the buyer to put uniform groups of half brothers together to improve your consistency. Whether you are in need of one bull or 30, we can accommodate your needs. All U2 bulls have been fed together responsibly here at the ranch. No bulls have been sold prior to the sale.

**The sale will be held at the ranch again in video format.** The bulls will all be on display for viewing so please come early and take your time going thru the pens. If you have any questions we are here to help you in anyway we can. We welcome your visit and encourage everyone to come out to the ranch ahead of time and tour the bulls and their mothers. There are a lot of bulls to get through and we like to let the bulls speak for themselves. Our cowherd has never been stronger! Udders, feet and capacity have always been high priorities. We are convinced the cows behind these bulls will be a positive influence on any herd and the industry.

We follow up on every bull and the feedback we receive has been our greatest reward! It is very exciting and inspiring to hear that U2 genetics are positively impacting the beef industry and the livelihoods of our customers. Please feel free to give us a call or better yet – stop by. **See you sale day!**

**Darren Unger & Family**

DARREN & JOANNE UNGER, COLE & JORDYN  
Box 705, Coaldale, Alberta T1M 1M6

---

**IN MEMORY OF Rob Holowaychuk**

Our story with Rob began in 1997 when we were interested in a bull at Brian and Kim Geis bull sale. We phoned Rob and visited about the bull and he promised to call us when the bull came into the sale ring so we could bid on the phone. Well, we waited about three hours and no call from Rob, so I finally called the sale day phone and Steve Dorran answered saying “the bull sale is over”! No worries though, since then Rob has more than made up for it -buying us cattle without us even asking!

Rob has been part of our family for the last 20 years and has definitely made a positive impact on us and our cow herd. He enjoyed sharing his knowledge and experience and wasn’t afraid to share his opinion about anything. His strong personality sometimes spoke things we didn’t want to hear, but maybe needed to hear. Deep down I know Rob did things for the right reasons to enhance the big picture! He is and will be surely missed.
1. QUALITY – top end bulls in volume. We take extreme pride in the fact that our sales offering is strong from one end to the other on an annual basis. These bulls are chosen from 650 registered cows so bulls that we would not use ourselves do not make the cut. We are as proud of the first bull through the ring as the last.

2. UNIFORMITY – Large sire groups of 1/2 and 3/4 brothers by breed leading sires.

3. CALVING EASE – Over the years customer feedback has taught us the most sought after bulls combine calving ease with top end performance. This has become our specialty as over 1/2 of our offering is comprised of these elite curve bending calving ease genetics.

4. AFFORDABILITY – Our focus remains on serving the commercial cowman by providing high quality bulls in volume at affordable prices. Whatever your budget is, with this many bulls to select from, you can expect to find a good selection in everyone’s price range.

5. SERVICE - We specifically keep good quality bulls on hand so in the event that a bull goes down during breeding season, we will have a replacement bull of similar quality available to you on short notice.

6. THE BEST GUARANTEE IN THE BUSINESS – We are customer driven and rely hugely on repeat business. We stand behind our product. If something goes wrong, we will look after you – guaranteed!

7. SIGHT UNSEEN PURCHASE PLAN – Although we prefer that you attend the sale, many producers cannot. For this reason we have many customers take advantage of this program. Call Darren or Joanne with your bull needs and we will be happy to help you with your selections and represent you in confidence Sale Day. We stand behind what we recommend. If you are not satisfied when your bulls are delivered, you don’t own them.

8. FREE DELIVERY TO CENTRAL POINTS.

WELCOME FROM BOHRSON MARKETING SERVICES

The U2 Ranch is highly respected for their top-quality seedstock throughout the world. We welcome you to their 22nd Annual Bull Sale that showcases the most elite of breeding stock in the Angus & Red Angus sector. Located in cattle country in southern Alberta, the U2 program has built its very select herd to appeal to even the most discriminating of purebred and commercial breeders alike. They are a hard working cow herd that doesn’t get overlooked for soundness and overall maternal strength to ensure your investment into their genetics will be a strong business decision.

The impressive combination of power yet not sacrificing calving ease is what has elevated U2 as a breed leader in the Red Angus industry. The red bulls have an impressive phenotype that runs very consistent throughout the entire offering. Added muscle shape, hair, stoutness and dimension compliment their offering while being backed by many of the leading genetics in the industry. With genetics represented like Foreigner, Renown, Riff, Rolls Royce, Reverence, you will have to travel a lot of miles to view a set of Red Angus bull in this high of volume that has the same uniformity and shear quality to them.

The black side has grown to be an elite cow herd and highly sought after group of bulls much like the reds. As they continue to expand this offering, quality will never be overlooked. A couple years back they sold an exceptional bull, U2 Coalition 206C to Spickler Ranch who was out of one of the nicest females we have witnessed in the U2 Erelite 109Z donor female. This offering will have sons of Coalition and many others in the offering stem back to 109Z as well. The black pen has calving ease and performance bulls with many combining a blend of both. You can source bulls with confidence in the black that you are getting genetics like Prime Cut, Syndicate, Wrangler among others that will boast your program.

It truly is a must see set of bulls throughout the entire offering from start to finish. We encourage you to make the trip to Coaldale, AB on Tuesday, March 20 to view this impressive offering and take in hospitality from the Unger family. If you can’t make it, feel free to contact us to utilize our confidential order buying services to represent your buying needs in a professional manner. See you at U2!

VISIT US ONLINE AT WWW.U2RANCH.CA
We consider Paradise City to be a Premier Calving Ease Herdsire Prospect with exceptional maternal value. With his breed character and proud stand he is always visible in the bull pen. He blends together perfectly: exceptional body length, massive depth and expansive muscle shape. His dam is a beautiful promising young 3 yr. old Magnum daughter with depth, hair and excellent udder quality. Use with confidence on heifers and cows.

- WI 102
- SELLING ½ INTEREST AND FULL POSSESSION.

Foreigner was our high seller in 2015 to Ole Farms, 5L, Sand Bar Ridge and Westphal Red Angus for $73,000. His uniqueness both in pedigree and as an individual attracted top breeders from North America to try to own him. His awesome dam solidified his worth. He had to go to stud in the US right after the sale so we were unable to collect him in Canada in 2015. As promised we used him heavy in 2016 and are blown away with the results. Foreigner stamped his calves with great hair, perfect feet, herd bull presence and extra width and depth. The best part is he is also the most reliable bull we have ever used for calving ease. As you will see we have never raised a more consistent sire group!

• Candidate is a Top Herdsire Prospect with cherry red hair covering with a wide and very good muscle pattern. He is deep and soft made with generous spring of rib.
• His dam is an absolutely gorgeous sharp fronted 3 yr. old with beautiful body type and udder quality. Anexa 281A the maternal grand dam has given us 3 replacements and adds further confidence to Candidate’s maternal credibility.
• Use on heifers or cows.

Lot 4

RED U2 MONTANA 169E
1/14/17 • REG 1979279 • TAT DUA 169E • BULL

- A definite favorite by early visitors. We agree, Montana has Herd Bull written all over him! He is a dominant performance bull with exceptional length, volume muscle and dimension.
- Like all the Foreigners, he is super footed and very sound. His dam is a powerful broody Justified daughter with plenty of natural thickness and excellent foot and udder quality! She is the maternal sister to the $20,000 Sniper bull that is doing a fine job for Golden Sunset Ranch.
- Suitable for cows

Lot 5

RED U2 FOREFRONT 188E
1/16/17 • REG 1979292 • TAT DUA 188E • BULL

- A performance powerhouse earning a weaning index of 111 and yearling index of a whopping 142!
- He was our #3 gaining bull with exceptional body length, perfect frame size on a sound correct structure.
- His dam is a larger framed cow with built in power and performance. Recommended for ranchers who sell their cattle by the pound!
- Use on cows and well developed heifers.

- **RED SCHR LUCY G. 272D 11J**

- A must see!
- He looks like a big strapping power bull and his paperwork reads “calving ease”. He is a dominant performance bull with exceptional length, volume, muscle and dimension.
- His dam is a big middled 61W cow that knows how to get it done! The granddam is also no stranger to the limelight - raising herd bulls for Forest Lakewood, U2 Ranch and countless females retained!
- Calving ease with Maximum performance!
- Use on cows and well developed heifers.
- WI 114 - YI 104

- **RED U2 GEORGINA 246M**

- A young herd bull that is moderate in birth weight and frame and full of style, hair mass and muscle shape! He has as much hip shape and lower quarter as any we’ve raised.
- His dam Georgina 483B is a direct young daughter of 246M, a beautiful donor quality, herd bull replacement hfr producing gem.
- Calving ease with this much shape and maternal backing are hard to find!
- Use on heifers and cows.
- WI 109
A sale feature that we highly recommend! He is high on our short list of bulls we need to implement into our program! Visitors comments include: “He is way better than his photo!”

- **RED FLYING K OPHELIA 77P**

**Riff is our highest selling bull ever to Y-Coulee for $102,500. Semen packages went to Smith Farms Neb., Dvorak Brothers Neb., Trademark Genetics TX, Shuey Stock Farm Iowa, T&J Schick MT, Peacock Red Angus, TX. He is as unique a herdsire as you’ll find and is changing the rules for the Red Angus breed! His phenotype speaks efficiency, thickness and character and his dam is even better! His progeny all have his proud character, natural thickness and dark cherry red haircoat! We feel his heifers may be as good as we’ve raised and will be definite features in our female sale this fall. Heifer calves have already made their mark down in the U.S.**

- **Strut is one of the most interesting bulls we have raised in some time!**
- **He takes the best from both Riff and Reckoning and packs incredible thickness, muscle and volume into a moderate framed soft made package! His herd bull character is second to none as he owns the bull pen.**
- **The best part is his dam Pride 282A who is a beautiful broody Mama’s Boy female that has been very popular with the visitors. She has raised us one replacement in 2015 and unfortunately we lost her beautiful heifer calf last spring.**
- **We believe Strut has the credentials to write his own page in Red Angus history, just as his sire and grandsire have!**
- **Use on heifers or cows.**
- **WI 103  Y1 109**

RED U2 MINOLA 213Y
RED U2 MINOLA 8101U

Riff really stamps his progeny with dark red high quality hair, natural thickness and cocky herd bull character. This guy exemplifies that and more!

His incredible dam is a deep bodied easy fleshing tank by Mission 61W. She has given us one replacement and a top herd bull to Belgium Farms.

Great Herd Bull candidate out of a great cow!

Use on heifers or cows.

WI 104

- A feature Riff calf I scored very high! He packs incredible thickness, muscle, volume and fleshing ability into a moderate medium framed package.
- His dam Bela 405Y is built kind of the same with excellent udder quality. Consider Riff as a herd bull to potentially add more natural mass, depth and thickness to your cow herd!
- Recommended for well developed heifers and cows.
The best power cowherd bull that we have been watching develop all summer! He is very sound and very gentle with obvious width and depth from all angles!

His dam is a top quality heavy milking “Elite” cow with an average ratio of a whopping 110! She brings in a top calf every year including a herd bull to Hays Stock Grazing.

Look to Rifle 109E to add serious pounds to your calf crop!

Renown was another sale feature in 2016 commanding $75,000 to BMS and Ter-ron Farms with semen packages going to MRL, Bar-E-L and Blains. He is also the hottest Red bull in Argentina leading off the powerful Debernardi Stud Red Angus line-up! His heifer calves have already lit it up averaging big time in the Genetic Progress Sale. As you will see here, Renown’s sons are full of muscle and performance and all inherited his sound foot and leg structure! Renown may have outbred himself on a couple of these sons as the consistency in shape and type is truly remarkable! Help yourself here to some of the most powerful Red genetics available anywhere!

RED U2 RENOWN 456E
2/3/17 • REG 1987045 • TAT DUA 456E • BULL

456E is ¾ maternal brother to the dam of Malbec, the bull that Genex chose last year. He is now producing semen for Genex in the U.S. and Debernardi in Argentina.

Look for sons here next year. 456E is a moderate chunk with a massive crest and masculine muscle pattern. With his maternal lineage, look to him to sire quality replacements.

Recommend for well developed heifers and cows.

SELLING HALF INTEREST & FULL POSSESSION

- This herd sire prospect brings calving ease backed by as many proven cows as you can find in one U2 bull pedigree; 333N, 271Y, 205M, 09E and more! All the great herd bull producing, highest dollar generating cows at U2 Ranch are in packed into this pedigree.
- 279E’s dam is a moderate framed cow that is the right kind.
- If you like bulls that are soft made, super big bodied, big ended, good footed and easy fleshing, this one is your kind!
- He has a herd bull presence and look that commands your attention.
- Reputation 279E posted a whopping 127 YW ratio. We like it when they are born right sized and still crush the scales as yearlings.
- Recommended for heifers and cows.

RED U2 ROLLER 349E
1/25/17 • REG 1983842 • TAT DUA 349E • BULL

- Big spread from BW to YW combined with a stout phenotype. To go from a negative BW to over 100 in YW is impressive and we think the spread will hold.
- Combination of Rolls Royce and Mama’s Boy assures the mass, muscle and dimension is for real.
- 349E commands your attention with his presence and dark red color. Rolls Royce’s sire, Rollin Deep, has been a huge hit in the U.S. and we like his kind.
- Recommended for heifers and cows.
- WI 110   YI 120

Rolls Royce was a must have bull when we discovered him in 2015. He has turned into an impressive herd bull thought by many international visitors as Rollin’ Deep’s best son. More importantly he has bred beyond himself and has demonstrated very reliable calving ease in tandem with incredible performance. We now have daughters milking and they look very promising.

Owned with Thistle Ridge Ranch

Reference Sire of Lots 82-94

the RECKONING 149A sons

102 RED U2 BLUE COLLAR 295E
1/21/17 • REG 1981562 • TAT DUA 295E • BULL

RECKONING 149A has become one of the hottest bulls in the Red Angus breed. His progeny and semen are exclusive and highly sought after in both North and South America. His sons have been our record setting sire group the last two years and this year his grand sons are front and center. His females are also in high demand and have turned into deep bodied beautifully uddered young cows. Reckoning has so much to offer the industry passing on his big foot, dark red hair and muscle shape to all his progeny. His semen commands $500/straw. Proudly owned with Six Mile Red Angus.

SELLING HALF INTEREST & FULL POSSESSION

Reference Sire of Lots 102-105

G RED U-2 RECKONING 149A
1/19/13 • REG 1763017 • TAT DUA 149A • BULL

The Reckoning x Copenhagen cross will go down as one of best ever at U2 Ranch and this bull will show you why. He was an absolute STUD all Spring and Summer and now he catches everyone’s eye with his big, deep soft look and just has a commanding presence that many great herd sires have.

His dam is one of our favorite Copenhagen daughters. She is deep bodied, with a picture perfect udder and is just a beautifully made cow. Rick Wiest and C&J Murray Ranches have sons working for them.

Progressive cattlemen who want to take their herd to the next level will find this bull and try to own him!

WI 112 YI 113
• If you want a sure enough, calving ease bull in a moderate framed package this chunky, dark, hairy, good footed bull is the one for you.
• He has enough muscle shape and pattern that he will keep lots of width in his progeny while giving you sleep at night calving ease.
• Add in the fact that he has some very proven cows in his pedigree and you have a maternal value specialist.
• Recommended for heifers and cows.

• Another one of the Reckoning x Copenhagen combinations that we know works so well.
• He blends a blood red color with a stylish complete look.
• We believe 295A has a very bright future here with a full sib replacement to 335E that everyone on the ranch appreciates.
• Recommended for heifers and cows.

• Reckoning burst onto the scene a few years ago as a sale topper and his sons have not disappointed us.
• This dark colored, extended, medium framed bull has a big scrotal and is backed by a really nice, moderate Magnum daughter.
• Recommended for heifers and cows.
• WI 106

**Black Addition** 157B was a very popular and unique red carrier Herd Bull in our 2015 sale. His massive, square hip and wide top are still impressing as a mature herd bull. His dam and grandsire spell longevity, having 31 natural calves between the 2 of them. His calves are remarkable, showing off their sire’s thickness and mass covered with a thick, red hair coat.

**NEW OUTCROSS GENETICS!** Owned with Cameron Farms.

- **RED U-2 DUCHESS 386X**
  - RED U-2 DUCHESS 2G

  - What an outcross powerhouse! We are really high on his sire, a paternal black-red carrier brother to Foreigner.
  - Black Addition is big boned, good footed and wide topped. You will find the same in this bull as he is hairy, deep, square hipped, loose made, thick and just a very well put together calf.
  - His dam is one of our favorite INXS daughters, 386X -YI 135. She is a beautiful, powerful, great uddered and footed female who always has a good calf beside her. She has two retained females and is the dam of Justified 235Z, purchased by Bar-E-L.
  - Selling ½ interest, full possession
  - This is a dark red, hairy, curious character.
  - He will find you in the pens and want to visit.
  - He combines out cross genetics on the topside of his pedigree with added yearling performance.

Coalition was our high seller in 2016 to Spickler Ranch in North Dakota. He has produced our most exciting black sire group to date! The consistency and quality in this group is overwhelming. We are not surprised as Erelite 109Z is our #1 Black cow in all categories. She is backed by two generations of herd building cows. Coalition passes on his hair, powerful lower ¼ and big shape onto every calf! The females are just as impressive and we feel they will be a perfect mating for Prime Cut. We are planning to use Coalition more and more. We expect his daughters to be our top females in the future!

- 2018 EPDs: +1.1 | +45 | +61 | +20 | +43 | Ind. Perf.: 60 | 696 | 1413 | 4.48

- A twin with a lot of shape, spring of rib and rump! Being raised as a twin may have hindered his weaning weight but he more than made up for it on test!
- Ruby 7296 is a powerful CAA Elite cow that has earned an average weaning ratio of 107 on her calves. This is the first time she has twinned and has been an awesome producer giving us 3 replacements and herd bulls to Buster and Caleb Klassen, Burke Creek Ranch and Pat Klassen.
- Calving ease backed by maternal goodness!
- Recommend for heifers and cows.
Lot 125

**U2 COALITION 187E**

- A long bodied bull with plenty of depth that compliments his pattern and profile. To top it off he has a gentle disposition added to the list.  
- His dam 31W is a moderate, broody mama that adds reliability to the equation as well.  
- Recommend for cows.  
- YI 114
Prime Cut was the high selling bull at Hinman’s 2015 sale for $70,000 USD. We looked long and hard for over three years before finding this obvious herd bull candidate that stood out from the crowd. After viewing his moderate, deep bodied, beautifully uddered dam, we knew the search was over! Prime Cut was used heavily and successfully on a wide range of heifers and cows. He has provided us with reliable calving ease plus predictable performance and passes on his muscle shape, depth and perfect head carriage. We couldn’t be happier with his progeny, both male and female. Visitors all summer were fascinated by both the broody, stout and fancy fronted heifer calves and the cocky, wide topped, thick butted bull calves. We are confident that these fresh pedigreed new generation genetics are a huge part of an optimistic future of our program. We now have daughters milking and they are all what we expected and more. Sound, beautifully uddered deep bodied females that will stand the test of time. 20 of the only sons to sell in Canada on offer.

- The unlimited shape and thickness this guy possess is phenomenal.
- All of this packed together on sound structure and a solid foot to boot!
- His yearling index is 117!
- We love the dam 56Z and wish we had more of her type around. She is deep, square and solid as you can get. This easy fleshing dam passes on her traits to her offspring.
- 56Z boasts a 110 YI.
- Recommend for cows.

- This massive extra wide Prime Cut son comes by it honestly as his dam 346W is a deep tank of a cow and yet very feminine fronted.
- She is a solid producer that is heavy milking and keeps on giving us top end calves, you’ll want to keep the replacements out of this guy! Recommend on cows.
- YI 110

Lot 146

Lot 147
Erelit 8109 is an absolute GEM and has probably had the most influence of any cow in our black program! It all started with her dam, Erelit 79K – a cow we thought was worthy of purchasing the entire PAX/MWC herd! Since then 8019 has given us 2 of our very best females: Erelite 1X and Erelite 52Z who is dam of lot #138. She also, has herd bulls in 4 top programs: Kientz Farms, Goldridge Ranching, Todd and Karen Coverdales and our high selling full brother last year to Allandale Angus.

**Selling Half Interest, Possession Negotiable**

Temptation is a bull calf we have been watching since he was a week old where he was an obvious early standout. Since then he has gotten better everyday and is not even close to reaching his potential. He has been the topic of many a discussion of seriously considering keeping him all to ourselves. This gentle herd bull has so many positive attributes to benefit the entire breed!

The 3 generations of cows that support him maternally are simply the best we have ever owned. His dam, 109Z is the dam of 180's full brother, Coalition 206C. She boasts ratios of 112 and 113. The granddam 1X is an elite cow with a 113 index on all 6 calves giving us 5 superior replacement females. The great granddam, 8109, has raised us 2 top replacements including 52Z the dam of lot #138, and 4 top herd bulls including last year's high seller to Allandale. All 3 generations have flawless structure, massive body depth and impeccable udder quality and can be viewed with a calf at side here at the ranch.

Bullion was a feature in our 2016 sale and sold to Allendale Angus. He has matured into an impressive herd sire and definitively stamps his calves with his look. His natural depth and herd bull character is evident in his sons. Another sire group with new genetics for our customers.

YCF WRANGLER 304A  
U-2 OAKLEAF 249C  
U-2 OAKLEAF 233A

- This smooth fronted, calving ease bull displays very clean lines.
- He has length added to his structure that sets him off.
- The dam 249C comes from the Oakleaf cow family. A cow family full of maternal traits and quiet dispositions.
- Longevity runs in this bull calf’s maternal side.
- Keep the replacements.
- Recommend for well developed heifers and cows.

BARSTOW CASH DDF  
U-2 MISS MORRISON 413C  
U-2 MISS MORRISON 371A

- This Bullion calf exhibits power and should add performance to any program.
- His added frame and length should add to the equation as well.
- The dam is out of the Miss Morrison cow family who are highly maternal and are easy fleshing. Rob acquired our first Miss Morrison cow and told us to hang onto those daughters!
- WI 103   YI 105.

- **He stamps them in a way that anyone could walk thru and hand pick them out! 483E carries himself with lots of shape and length.**
- **A true cow bull that should leave you great functioning replacements. 371A has already left us 2 worthy replacements.**
- **WI 114 YI 105**
Xclusive has been one of our favorite bulls to ever walk our pastures. His sons have amazing depth, top, muscle shape and foot. His daughters are so deep and broody as you can make with amazing udders! Use these sons with confidence. We lost 25X to injury way too early and his semen is in limited supply so use these unique genetics with confidence.

**Lot 176**

- Profit Margin is a sale feature that is as good as his photo!
- His sire, Cash Advance, was our high selling Cash son in 2016 to Double F.
- Profit Margin is a beautifully bodied bull with breed changing type, perfect muscle shape and Angus breed character. He is backed by 3 generations of beautiful moderate females.
- His 2 yr old dam is an impeccably uddered Syndicate daughter who scored big on her first try!
- Recommend for heifer and cows.
- **SELLING ½ INTEREST AND FULL POSSESSION**
