View the bulls all day, followed by a meal & sale social.

Tuesday, March 20th

10:30 a.m. Brunch • 1:00 p.m. Sale Time

Steak dinner immediately following sale!

WELCOME FROM TRANSCON,

If the expression "first impressions mean everything" is true at all, the Ungers at U2 Ranch have certainly got my attention! Viewing this set of bulls in January was one of the most impressive offerings, maybe even that I've ever seen, as a purebred sale manager in my 22 year tenure with Transcon Livestock Corp.!!! Not just the sheer mass and middle these bulls attain, but the solid hoof structure that is so apparent keeps elevating the impressiveness. It goes on & on with how many high end bulls are available here; there is an overwhelming consistency in this group. The numerous performance Angus bulls here has to rival any breeding program in the country and likely on this continent.

There are many bulls that are mothered by "first calvers" and they don't take a back seat. It's quite a testament to the quality of the youth in the herd. To be able to find bulls that can be used for Angus calving ease and yet command such a payweight is "outside the box"!

Don't second guess yourself if you make a long, long, long list of bulls here that you like and can bid on, it is reality!

On behalf of the Ungers, we invite you to their bull sale hosted at the ranch. You will have the experience of seeing as many good animals in one place as anywhere. If you aren't able to attend, please call our cell phones to assist you with your bidding needs. Our order buying services are industry leading and highly trusted.

For the U2 Ranch crew,

Jaymes E. (Jay) Good

FINANCING AVAILABLE

If you are interested in financing, please call prior to the sale to discuss the options and terms.

ACCOMMODATIONS

Coaldale Inn Coaldale, Alberta (403) 345-5410

Super 8, Taber, Alberta (403) 223 8181

From Coaldale go approximately five miles east on Hwy 3 and turn north on road 19-2. Go approximately eight miles to ranch sign and wagon at the entrance. Follow the road to the right, down into the ranch and sale facility.

Welcome to the Sale!

Welcome to our 22nd Annual Bull Sale. We would like to sincerely thank our loyal customers, friends and family for their continued support and trust in our program.

We are grateful for your interest!

Our focus has remained the same, to continually improve our genetics and produce sound, high quality bulls in volume that will positively influence the bottom line for the commercial cattlemen. This commitment towards continual improvement has led us to a few changes to 2018. Last Fall we constructed new larger bull pens forcing the bulls to walk and receive more exercise to improve pasture readiness. Secondly, we changed our bull ration by increasing the roughage and decreasing the energy in the TMR. These two factors have resulted in a fresher pen of breeding bulls that have enough condition to properly display their natural thickness yet they have plenty of room to grow and see their best days ahead of them.

Early visitors have unanimously agreed that this years set of bulls have raised the bar for consistency and uniformity! This combined with our large sire groups on offer allow you the buyer to put uniform groups of half brothers together to improve your consistency. Whether you are in need of one bull or 30, we can accommodate your needs. All U2 bulls have been fed together responsibly here at the ranch. No bulls have been sold prior to the sale.

The sale will be held at the ranch again in video format. The bulls will all be on display for viewing so please come early and take your time going thru the pens. If you have any questions we are here to help you in anyway we can. We welcome your visit and encourage everyone to come out to the ranch ahead of time and tour the bulls and their mothers. There are a lot of bulls to get through and we like to let the bulls speak for themselves. Our cowherd has never been stronger! Udders, feet and capacity have always been high priorities. We are convinced the cows behind these bulls will be a positive influence on any herd and the industry.

We follow up on every bull and the feedback we receive has been our greatest reward! It is very exciting and inspiring to hear that U2 genetics are positively impacting the beef industry and the livelihoods of our customers. Please feel free to give us a call or better yet – stop by.

See you sale day!

Darren Unger & Family

DARREN & JOANNE UNGER, COLE & JORDYN

Cole, Joanne, Jordy and Darren Unger

IN MEMORY OF *Rob Holowaychuk*

Our story with Rob began in 1997 when we were interested in a bull at Brian and Kim Geis bull sale. We phoned Rob and visited about the bull and he promised to call us when the bull came into the sale ring so we could bid on the phone. Well, we waited about three hours and no call from Rob, so I finally called the sale day phone and Steve Dorrans answered saying "the bull sale is over"! No worries though, since then Rob has more than made up for it -buying us cattle without us even asking!

Rob has been part of our family for the last 20 years and has definitely made a positive impact on us and our cow herd. He enjoyed sharing his knowledge and experience and wasn't afraid to share his opinion about anything. His strong personality sometimes spoke things we didn't want to hear, but maybe needed to hear. Deep down I know Rob did things for the right reasons to enhance the big picture! He is and will be surely missed.

VISIT US ONLINE AT **WWW.U2RANCH.CA**

Why buy a Bull?

1. QUALITY – top end bulls in volume. We take extreme pride in the fact that our sales offering is strong from one end to the other on an annual basis. These bulls are chosen from 650 registered cows so bulls that we would not use ourselves do not make the cut. We are as proud of the first bull through the ring as the last.

2. UNIFORMITY – Large sire groups of 1/2 and 3/4 brothers by breed leading sires.

3. CALVING EASE – Over the years customer feedback has taught us the most sought after bulls combine calving ease with top end performance. This has become our specialty as over 1/2 of our offering is comprised of these elite curve bending calving ease genetics.

4. AFFORDABILITY – Our focus remains on serving the commercial cowman by providing high quality bulls in volume at affordable prices. Whatever your budget is, with this many bulls to select from, you can expect to find a good selection in everyone's price range.

5. SERVICE - We specifically keep good quality bulls on hand so in the event that a bull goes down during breeding season, we will have a replacement bull of similar quality available to you on short notice.

6. THE BEST GUARANTEE IN THE BUSINESS – We are customer driven and rely hugely on repeat business. We stand behind our product. If something goes wrong, we will look after you – guaranteed!

7. SIGHT UNSEEN PURCHASE PLAN – Although we prefer that you attend the sale, many producers cannot. For this reason we have many customers take advantage of this program. Call Darren or Joanne with your bull needs and we will be happy to help you with your selections and represent you in confidence Sale Day. We stand behind what we recommend. If you are not satisfied when your bulls are delivered, you don't own them.

8. FREE DELIVERY TO CENTRAL POINTS.

**WELCOME FROM
BOHRSON
MARKETING SERVICES**

The U2 Ranch is highly respected for their top-quality seedstock throughout the world. We welcome you to their 22nd Annual Bull Sale that showcases the most elite of breeding stock in the Angus & Red Angus sector. Located in cattle country in southern Alberta, the U2 program has built its very select herd to appeal to even the most discriminating of purebred and commercial breeders alike. They are a hard working cow herd that doesn't get overlooked for soundness and overall maternal strength to ensure your investment into their genetics will be a strong business decision.

The impressive combination of power yet not sacrificing calving ease is what has elevated U2 as a breed leader in the Red Angus industry. The red bulls have an impressive phenotype that runs very consistent throughout the entire offering. Added muscle shape, hair, stoutness and dimension compliment their offering while being backed by many of the leading genetics in

the industry. With genetics represented like Foreigner, Renown, Riff, Rolls Royce, Reverence, you will have to travel a lot of miles to view a set of Red Angus bull in this high of volume that has the same uniformity and sheer quality to them.

The black side has grown to be an elite cow herd and highly sought after group of bulls much like the reds. As they continue to expand this offering, quality will never be overlooked. A couple years back they sold an exceptional bull, U2 Coalition 206C to Spickler Ranch who was out of one of the nicest females we have witnessed in the U2 Elite 109Z donor female. This offering will have sons of Coalition and many others in the offering stem back to 109Z as well. The black pen has calving ease and performance bulls with many combining a blend of both. You can source bulls with confidence in the black that you are getting genetics like Prime Cut, Syndicate, Wrangler among others that will boast your program.

It truly is a must see set of bulls throughout the entire offering from start to finish. We encourage you to make the trip to Coaldale, AB on Tuesday, March 20 to view this impressive offering and take in hospitality from the Unger family. If you can't make it, feel free to contact us to utilize our confidential order buying services to represent your buying needs in a professional manner. See you at U2!

Foreigner was our high seller in 2015 to Ole Farms, 5L, Sand Bar Ridge and Westphal Red Angus for \$73,000. His uniqueness both in pedigree and as an individual attracted top breeders from North America to try to own him. His awesome dam solidified his worth. He had to go to stud in the US right after the sale so we were unable to collect him in Canada in 2015. As promised we used him heavy in 2016 and are blown away with the results. Foreigner stamped his calves with great hair, perfect feet, herd bull presence and extra width and depth. The best part is he is also the most reliable bull we have ever used for calving ease. As you will see we have never raised a more consistent sire group!

RED U-2 DUCHESS 386X
RED HOWE MAGNUM 169W
RED U2 MABEL 178W

- Deep bodied capacious bull that will thrive in a low input environment. His mass and thickness are impossible to miss! His end to end depth and do ability and maternal lineage give him herd building credibility.
- His dam, just a 2 yr old knocked it out of the park on her first try. We expect great things to continue from her. She is moderate with extra volume and very good udder quality.
- Use on cows and well developed heifers.
- WI 111

RED HOWE MAGNUM 169W

RED U-2 STORMY 27X

- A sure fine calving ease bull that is hard to fault. He is stylish and moderate with plenty of fleshing ability and thickness.
- His dam is a top end Reckoning daughter with everything going for her. A perfect example of the type of calving ease /high maternal cattle we strive for.
- Use with confidence on heifers and cows.
- WI 108 YI 101

- Strut is one of the most interesting bulls we have raised in some time!
- He takes the best from both Riff and Reckoning and packs incredible thickness, muscle and volume into a moderate framed soft made package! His herd bull character is second to none as he owns the bull pen.
- The best part is his dam Pride 282A who is a beautiful broody Mama's Boy female that has been very popular with the visitors. She has raised us one replacement in 2015 and unfortunately we lost her beautiful heifer calf last spring.
- We believe Strut has the credentials to write his own page in Red Angus history, just as his sire and grandsire have!
- Use on heifers or cows.
- WI 103 YI 109

Riff is our highest selling bull ever to Y- Coulee for \$102,500. Semen packages went to Smith Farms Neb., Dvorak Brothers Neb., Trademark Genetics TX, Shuey Stock Farm Iowa, T&J Schick MT, Peacock Red Angus, TX. He is as unique a herdsire as you'll find and is changing the rules for the Red Angus breed! His phenotype speaks efficiency, thickness and character and his dam is even better! His progeny all have his proud character, natural thickness and dark cherry red haircoat! We feel his heifers may be as good as we've raised and will be definite features in our female sale this fall. Heifer calves have already made their mark down in the U.S.

- Another dark red, loose made, long bodied performance bull by Riff. We really like the neck extension and head carriage on this calf. When you get behind him you really appreciate what a chunk he is!
- His stunning dam is massive bodied and soft made – a perfect compliment to Riff. Her last son is working at Jenner Colony.
- Use on well developed heifers and cows.

Renown was another sale feature in 2016 commanding \$75,000 to BMS and Ter-ron Farms with semen packages going to MRL, Bar-E-L and Blairs. He is also the hottest Red bull in Argentina leading off the powerful Debernardi Stud Red Angus line-up! His heifer calves have already lit it up averaging big time in the Genetic Progress Sale. As you will see here, Renown's sons are full of muscle and performance and all inherited his sound foot and leg structure! Renown may have outbred himself on a couple of these sons as the consistency in shape and type is truly remarkable! Help yourself here to some of the most powerful Red genetics available anywhere!

RED THAT'LL DO ANEXA 48B

- Clean made cow herd bull with plenty of length and muscle expression.
- His attractive dam Mabel 221Y has raised us one top replacement and a bull to Willow Creek Colony.
- Expect big performance in the feedlot as Renown 204E posts a remarkable 117 yearling ratio!

- A flashy herd bull that will add look, hair and muscle to his progeny.
- He is very square hipped with lots of width between his pins.
- His dam is a rare and treasured Inxs cow that has produced top herd bulls for Tophams, Hays Grazing and last years lot 1 bull to Congdons! The only daughter we've agreed to sell sold to Colton Barton of Texas for \$28,500 U.S. and has been shown very successfully.
- Misty 160X has ratios of 102 and 104 with an average birth weight of 79 lbs on 6 calves.

- This herd sire prospect brings calving ease backed by as many proven cows as you can find in one U2 bull pedigree; 333N, 271Y, 205M, 09E and more! All the great herd bull producing, highest dollar generating cows at U2 Ranch are in packed into this pedigree.
- 279E's dam is a moderate framed cow that is the right kind.
- If you like bulls that are soft made, super big bodied, big ended, good footed and easy fleshing, this one is your kind!
- He has a herd bull presence and look that commands your attention.
- Reputation 279E posted a whopping 127 YW ratio. We like it when they are born right sized and still crush the scales as yearlings.
- Recommended for heifers and cows.

- Big spread from BW to YW combined with a stout phenotype. To go from a negative BW to over 100 in YW is impressive and we think the spread will hold.
- Combination of Rolls Royce and Mama's Boy assures the mass, muscle and dimension is for real.
- 349E commands your attention with his presence and dark red color. Rolls Royce's sire, Rollin Deep, has been a huge hit in the U.S. and we like his kind.
- Recommended for heifers and cows.
- WI 110 YI 120

Rolls Royce was a must have bull when we discovered him in 2015. He has turned into an impressive herd bull thought by many international visitors as Rollin' Deep's best son. More importantly he has bred beyond himself and has demonstrated very reliable calving ease in tandem with incredible performance. We now have daughters milking and they look very promising.

- A younger bull in the sale offering that is attractive and has lots of presence to him.
- The Cophenhagen x Magnum x Misson Statement pedigree combines maternal value with performance.
- His dam is one we love because she is beautifully made, fairly moderate with a nice udder. 160A has raised a herdsire for Dwajo and Wayne Branden.
- Recommended for heifers and cows.

- There is real maternal value bred into this bull!
- His LARKA dam had 13 natural calves during her tenure at U2 Ranch.
- This kind of longevity and fertility adds true value to a registered or commercial cowherd.
- This bull has the genetics and look to be a real cow maker.
- Recommend for well developed heifers and cows.

Reckoning 149A has become one of the hottest bulls in the Red Angus breed. His progeny and semen are exclusive and highly sought after in both North and South America. His sons have been our record setting sire group the last two years and this year his grand sons are front and center. His females are also in high demand and have turned into deep bodied beautifully uddered young cows. Reckoning has so much to offer the industry passing on his big foot, dark red hair and muscle shape to all his progeny. His semen commands \$500/straw. Proudly owned with Six Mile Red Angus.

- A feature herd bull that we find very hard to fault!
- He profiles beautifully with consistent depth and perfect head carriage. As we study him closer we appreciate his uncommon balance, muscle shape and width of top.
- His incredible dam boasts Elite status earning an amazing 110 weaning index on all 6 of her calves. No matter what she is bred to her calves rise to the top. She has given us 3 top replacements and raised front end herd bulls for Spring Lake Colony and Louis Gredanius.
- Highly proven maternal genetics with built in calving ease!
- Recommend on heifers and cows.
- WI 108

Coalition was our high seller in 2016 to Spickler Ranch in North Dakota. He has produced our most exciting black sire group to date! The consistency and quality in this group is overwhelming. We are not surprised as Erelite 109Z is our #1 Black cow in all categories. She is backed by two generations of herd building cows. Coalition passes on his hair, powerful lower ¼ and big shape onto every calf! The females are just as impressive and we feel they will be a perfect mating for Prime Cut. We are planning to use Coalition more and more. We expect his daughters to be our top females in the future!

- Calving ease bull with high quality everything! He exhibits his expressive muscle shape with character and style and holds his massive depth from his forerib thru to his flank.
- His faultless dam doubles his appeal as she is one of the most attractive, big bodied, black cows we own! She speaks calving ease as her progeny have averaged 73 lbs at birth on 12 calves.
- We believe the herd building capabilities of Progression are endless!
- Recommend on heifers and cows.

- Another calving ease bull by Coalition with added performance!
- 146E exhibits added frame and depth with an eye catching profile.
- He draws maternal strength from his dam Jennifer 7P who is another "Elite" cow with an impressive 105 ratio on all 12 calves! She is still producing at 14 yrs of age with a sound structure and udder quality. She has given us 5 replacements and herd bulls to Kornfield, SpringView, Hays, Rhodes and Krebs.
- Calving ease with maternal strength and longevity!
- Recommend for heifers and cows.

Prime Cut was the high selling bull at Hinman's 2015 sale for \$70,000 USD. We looked long and hard for over three years before finding this obvious herd bull candidate that stood out from the crowd. After viewing his moderate, deep bodied, beautifully uddered dam, we knew the search was over! Prime Cut was used heavily and successfully on a wide range of heifers and cows. He has provided us with reliable calving ease plus predictable performance and passes on his muscle shape, depth and perfect head carriage. We couldn't be happier with his progeny, both male and female. Visitors all summer were fascinated by both the broody, stout and fancy fronted heifer calves and the cocky, wide topped, thick butted bull calves. We are confident that these fresh pedigreed new generation genetics are a huge part of an optimistic future of our program. We now have daughters milking and they are all what we expected and more. Sound, beautifully uddered deep bodied females that will stand the test of time. 20 of the only sons to sell in Canada on offer.

- Temptation is a bull calf we have been watching since he was a week old where he was an obvious early standout. Since then he has gotten better everyday and is not even close to reaching his potential. He has been the topic of many a discussion of seriously considering keeping him all to ourselves. This gentle herd bull has so many positive attributes to benefit the entire breed!
- The 3 generations of cows that support him maternally are simply the best we have ever owned. His dam, 109Z is the dam of 180's full brother, Coalition 206C. She boasts ratios of 112 and 113. The granddam 1X is an elite cow with a 113 index on all 6 calves giving us 5 superior replacement females. The great granddam, 8109, has raised us 2 top replacements including 52Z the dam of lot #138, and 4 top herd bulls including last year's high seller to Allandale. All 3 generations have flawless structure, massive body depth and impeccable udder quality and can be viewed with a calf at side here at the ranch.

Syndicate has become our go-to calving ease sire and so much more! He adds big time maternal goodness, style and consistent thickness and muscle shape. His quiet gentle demeanor is displayed in all of his progeny. He has sired five calf crops and is an awesome female producer that have impeccable udder structure. Look to Syndicate to add maternal strength.

U-2 ANNIE 407P

- A Wrangler bull calf profiling shape and depth from his girth to his flank all on a moderate frame. His 73 lb birth weight is a nice touch to his data.
- The dam 517B is out of the Annie cow family who have been honest working cows here at the ranch. The granddam Annie 407P captures the title "Designated Elite" with 11 calves produced with an average ratio of 110. We lost her this past Fall and have 3 replacements producing in our herd and sold one to Madison Sibbald for a 4-H project.
- Keep the females out of this one!
- Recommend for heifers and cows.
