WILLOWDALE SIMMENTALS KMR SIMMENTALS
SHORT GRASS FARMS SADLIER CATTLE COMPANY

# WELCOME from the Transcon Team!

Willowdale Simmentals has stepped up this year with a larger group of red and black Simmental bulls. These bulls are soft made soggy bulls with great haircoats. They are developed at a very modest level to ensure longevity for their new owners. Dale has a wide variety of genetics in his group featuring sons of his 2 walking herdsires from Spring Creek Simmentals. This will be a very consistent group and your list should be long as the groups uniformity is outstanding. This year the Smiths are also selling a great set of high end heifers, don't miss these outstanding heifers!

KMR Simmentals is operated by Kent, Robin and family. Take the time to have a visit, you may just find your next heifer bull in this group.

This will be Short Grass Farms first Bull sale and what a nice set of coming 2-yr-old bulls they have! This is a very strong set of bulls that will have the ability to get out there and cover some ground in the breeding pasture. These bulls are big rugged meat machines that will add value to any commercial operation! I think Kurtis and Chelsie have brought a very impressive set of bulls to town so take a very serious look here.

On the theme of bulls with extra size and age we have added an exciting group of Black Angus bulls. Sadlier Cattle Company brings a strong set of Angus bulls that are sure to impress you. This uniform group will allow you to source more than one bull of a very similar phenotype for your program.

Hope to see you in Beaverlodge but if you are unable to attend please feel free to call any of the Transcon Team!

Lots

### WELCOME from Willowdale Simmentals

We are pleased to be part of the Peace Country Simmental Sale. Our goal continues to be to provide quality Simmental breeding stock that is easy calving, polled and growthy.

We have a great selection of homozygous polled, red and black Simmental bulls. Also offered for sale are 15 open yearling heifers.

Our feeding program has not changed a lot over the years. We like to grow our bulls on mainly a forage diet, giving them a better chance at longevity. Fortunately we had rain late in the summer and were able to get a nice crop of second cut alfalfa hay. Bulls and heifers have been getting 18% Crude Protein second cut alfalfa hay with a mixture of rolled oats and wheat at 1% body weight plus a Bullseye pellet supplement.

We have a comprehensive herd health program, starting when the calves are born. All bulls are semen tested and guaranteed to be breeders. For more information contact Dale or Kent. We look forward to helping you with your bull selection.

Most of the sale animals are sired by our three walking sires:

Spring Creek Redford 55 - This is a blaze face, dark red, easy calving herd sire adds lots of maternal value to our herd. He has very correct legs with a big foot.

Spring Creek Eastwood 73G - This smooth, dark red bull, was originally bought as a heifer bull. He crosses well on the large framed cows. Progeny is super smooth.

KWA Statement 31J - Our newest herd bull, to add more growth potential to the calves. He is a son of MRL Statement, who adds calving ease with the deep bodied soggy look. Statement's dam, W21, has been a proven matron in the Simmental breed.

Dale & Gudy

"Our Working Crew"

Dale & Judy Smith and Family Home: 780-524-2790 Dale Cell: 780-558-9337 Kent Cell: 780-721-1109

Email: drjs@iwantwireless.ca www.willowdalecattle.com

KWA Statement 31J Sire of Lot 1

Spring Creek Eastwood 73G Sire of Lots 3 - 6

Spring Creek Redford 55H Sire of Lots 7 - 12 and 14

Here is a special calving ease, moderate framed bull. All of his EPD's are on the positive side of the scale. Started with a 70lb birth weight and matured into a Herd Bull. He is a deep soggy bull with lots of rear muscle development and excellent testicle size. His sire, KWA Statement 31J sired low birth weight calves on heifers and is a proven calving ease sire.

Statement's dam, WS Mother Lode W21 was a key piece in the Ashworth Farms donor pen and integral to the success of their program

Take a serious look at this bull for larger heifers, without losing performance.

#### **HOMO POLLED**

Here is a dark red bull that has a bright future. A pedigree that is headlined by his sire: Walk This Way and his dam's sire: Mader the National. 13L has EPD's that are exceptional for Calving ease, Birth weight and growth traits, a bull that should fit every cattleman's needs. Look at his rear muscle expression and width over his topline. A bull that should have stayed at Willowdale because he has the phenotype and genetics to be a purebred herd sire.

This young bull is one of our high performers. He weaned off of his heavy milking MRL Starter mother as our heaviest bull. He might also be the longest bull in the pen. Here is a bull that will add pounds to your calves, while having a balanced set of EPD's. These Eastwood bulls have that calving ease we all like to have for calving.

#### **HOMO POLLED**

This young bull is one of our high performers. He has performed very well since weaning, with an ADG of 3.64/day. Our bulls are not pushed on a high grain diet. Their grain ration is1% live weight plus free choice second cut alfalfa, grass hay and a Bullseye mineral pellet. **46L** has lots of thickness on a deep bodied moderate frame. His **Red Summit** dam is showing she can add pounds to her progeny. She has excellent feet and a tidy udder. Take a serious look at this guy, he checks all the boxes.

A dark red polled son of **Spring Creek Eastwood 73G**. **Eastwood** was used on heifers with great success and has proven to be an excellent sire on mature cows. **4L** is very smooth in his makeup, stands on excellent feet and legs and has a great disposition.

#### **HOMO POLLED**

The youngest bull in the pen this year has the third highest weaning weight. A smooth made dark red **Eastwood** son out of an **Odin** daughter who is ten years old and still on the farm producing today. Moderate birth weight of 92lbs. This guy gets out and walks great, with good feet and a big hip. He has excellent calving ease EPD's and would work on second calvers or cows.

A stout, larger framed, deep ribbed bull, with dark red hair to compliment his rugged good herd bull looks. Take a look at the top notch herd bulls in his pedigree: Liner 56U, Spark Plug, Mader The National and Odin U5.We bought Spring Creek Redford 55H as a top selling bull in the 2020 Spring Creek Simmental Sale. His progeny are quiet, calve easy and grow above average. 39L has above average EPD's across the growth chart. He is a cow bull with calving ease, a bull everyone is looking for.

#### **HOMO POLLED**

A dark red, homo polled **Spring Creek Redford** son. **9L** has shown outstanding performance compared to his pen mates. Ranked #2 at weaning and #1 at yearling weight and he only started at 86 lbs. This bull has that natural hair coat, is very smooth, yet shows adequate thickness over his top and through to the rear quarter. EPD's are in the top 20% for birth weight and 35% for calving ease. The Nevada cow family has been very consistent producer of bulls.

Here is a moderate birth weight bull with a big square hip and a wide top. His dam Red Wheatley is a tank; a thick, deep bodied cow with an excellent level udder. Herd bulls come from first-class cows.

#### **HOMO POLLED**

A moderate framed, deep bodied, very smooth, dark red bull with lots of eye appeal! He is quiet and sensible. His grand dam is a Muirhead Lights Out daughter, bought from Westway Farms.

If you need a heterozygous black bull for your cow herd, this guy will fit the order. He is our top performing black bull @ 3.47lbs/day. That along with his natural muscle development, loose hided and deep ribbed look make him a good choice. His dam and grand dam have been consistent top end bull producers for us. Having Spring Creek Redford as a sire adds consistency to his genetic profile.

100 lbs

This 3/4 brother to the 7L bull is almost identical in his makeup. It just enforces the genetic consistency of this bloodline. The width of top, rear muscling and depth of rib in these black pen mates is very good. Superior calving ease and above average for all performance traits. For cattlemen wanting growthy steers calves and the ability to retain females, these two blacks (7L & 10L) need serious attention.

A clean fronted black bull, with 11 of 13 EPD traits above average. He will sire a balanced set of calves. His Eastwood dam has a very tidy udder, small teats and is moderate framed. His sire Mader Walk this Way is one of the premier calving ease/growth bulls in the Simmental industry today. His semen is in high demand. Here is a chance to own a black bull with exciting genetics and performance.

#### **HOMO POLLED**

An outcross bull to our program. We purchased his mother at the Spring Creek dispersal sale in 2022. She is a cow that could go into a donor program. MRK Capitalist is a stout MR Hoc Broker son. He has been performing at the top end of his pen mates, with WPDA of 3.43lbs/day. A dark red, blaze faced bull that travels very well on excellent feet and legs. He was part of our pen of 3 bulls at the 2024 Peace Country Beef Congress.

This homo polled, diluter free, dark red bull is from two black parents and will cross well on mixed breed cow herds. **14K** is very smooth, with a nice clean front end and a desirable temperament. His sire is a black bull know to add length and good feet and legs to his progeny. This red bull follows that pattern. Above average calving ease and birth weight EPD's. January 14/24 weight - 1900lbs

#### **HOMO POLLED**

He is homo polled and diluter free. This is a solid red, stout, long bodied **WS EPIC** son. These 2 year olds were brought into the feed pen at Christmas. His dam is a black **Mader the National** daughter admirable udder and structure. A great cow bull that can add thickness and growth to your calves. January 14/24 weight - 1970lbs

# WELCOME from KMK Simmentals

KMR Simmental's is a family operated purebred cow calf operation based out of Grovedale Alberta. Our goal is to provide the type of cattle the commercial cattleman desires. Udders and feet have been the main focus of our cow herd from the start. We have always selected bulls with a very maternal pedigree to ensure these traits continue to be passed on. KMR cows winter on a very similar ration to most ranchers in the area, highly hay based diet with some straw and grain also given. We feel our cows must make it in the real world to

prove they deserve to pass on their genetics. We have brought these bulls along slow and steady to promote longevity. We weaned early this year due to poor pastures from the lack of moisture, these bull went on whole oats from weaning to the start of January when we switch to a Bullseye and cereal based ration. We have a good number of heifer bulls available this year in both colors as well as some cow bulls too.

Looking forward to seeing you on sale day.

Kent and Robin Malcomson & Family

Is the only bull in the offering out of our KWA Limitless bull we lost too soon. This sire goes back to the great 14X cow who was one of the best red cows ever in the Simmental breed. Small BW and lots of CE in his pedigree we feel this guy would work well in the heifer pen.

KWA Limitless 34H - Sire of Lot 28

## WELCOME from Short Grass Farms

Welcome, we are extremely grateful & excited to be included in the Peace Country Bull Sale. We would like to take this opportunity to thank all our past & future buyers, all of whom helped get us here – Our First Bull Sale!

These coming 2-year-old bulls will sure to be a asset to any cattle operation and we look forward to see them working for you. Although our offering may be small, may it be mighty. We believe our program allows these boys more time to grow at a natural pace, promoting longevity. They are fed a high forage diet, and hand fed a Beef Ration supplement. Paying close attention to weights & growth for optimum performance. We concentrate on Disposition, feet & udder qualities within the herd.

All the bulls & heifers raised on the farm are halter broke. We take great pride in the quietness of the herd that is being passed onto their offspring. Countless hours are spent out in the pen. We have been heavily involved in 4H for several years, and the girls love to show cattle. You'll see them sporting their buckles everywhere they go. We trust that any one of the Bulls on offer will be great herd builders! Bulls can be viewed prior to sale day on the farm North of DeBolt – we would love to take you for a tour and chat any day.

We look forward to meeting you! Kurtis, Chelsie, Mickenzie, Tessa, Raigan

#### HORNED

Last but not least. He is the most vocal one in the pen, he just likes to make sure we all notice him! I think he's the jealous type. He comes from a big volumed powerful dam. His full sister is in the replacement pen and she is a tank! Here's another guy that is ready to cover some ground. He's got a large frame and muscle to go with it, guaranteed to put some extra size and pounds to your calves. I absolutely love his coloring and find his face shows off his character to a tea.

VIRGINIA VACHON 41H Sire of Lot 30, 32 and 36

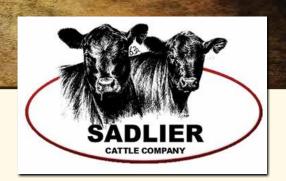

SHORTGRASS HURRICANE 109H Sire of Lot 34

# WELCOME from Sadlier Cattle Company

We are a small, registered angus ranch 12 miles NW of Hines Creek, Alberta. We started our registered herd by selecting 10 cows out of 30 from Brandl Cattle Co. at Jarvie Alberta in 2019. That winter I took an AI course in order to select genetics from the bigger more sought-after bull world. We are very new to the game and we have learned a lot and still have much to learn. As we are a small family operation, we breed for attitude, along with foot quality and performance. We are always open to having visitors and open to suggestions how we can improve our operation and genetics.

Todd Sadlier (780) 772-3978

The deck was stacked against 3K. His Premier Dam died when he was 3 months old after which he raised himself on pasture and we are quite sure he didn't steal milk. His sire (which was a popular AI sire for years) is also deceased. He will be a calving ease sire with great growth potential.

14K is a red carrier out of a very fertile cow line. His Grand Sire was a popular AI bull out of SAV. Again, another calving ease sire with good performance.

Hart Outlier is a calving ease sire while this guys dam is a very docile good milking cow.

#### **COMMERCIAL HEIFERS**

#### CONSIGNED BY WILLOWDALE SIMMENTALS

We have decided to consign 15 red and black open heifers to the sale. All of our heifers are kept over the winter and from our uniform group of replacement heifers we have taken out this group. They will be sold without papers. In past years Craig Taylor from Wembley has purchased groups of heifers from us and been very pleased with them.

The heifers will be sold in small lots. They have all their vaccinations, including their pre-breeding shots. They were weighed February 7 and ranged from 825 - 1000 lbs. All heifers are guaranteed open, they have been cycling regularly. The pictures show a sampling of the heifers.

Special Thanks to All of our Bidders and Buyers over the years!

Your support in our programs is greatly appreciated!

We look forward to visiting with you on Sale Day!

# Annuals & Perennials; single varieties to complete silage, pasture and hay mixes

Keeping your cattle healthy and profitable and providing the right nutrition means a great deal to us.

Why? Because our passion is to help farmers feed people. Our team is committed to providing a specialized, full farm approach that optimizes all aspects of your cattle operation, so you and your family can continue to feed people for the next 100 years.

We are a Western Canadian, family-owned company that caters to purebred, commercial and backgrounding segments with the following line of nutritional services:

Forage Analysis Ration Balancing Custom Formulation

To learn more about our team and our full farm approach to beef nutrition, visit bullseyefeeds.ca. For inquiries or to schedule a farm visit, call one of our highly-trained beef consultants today.

TERMS - The terms of the sale are cash, cheque, e-transfer, or wire and are due at the time of sale, unless other arrangements have been made between buyer and seller prior to the sale. Transcon reserves the right to charge interest at a rate of 2% per month on overdue accounts. The right of property shall not pass until after settlement is made. Transcon Livestock Corp. reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for their purchase Transcon Livestock Corp. reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released. Transcon Livestock Corp and/or the Auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance prior to the sale with the owner or Sale Managers.

BID - No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted.

SALES TAXES – Applicable sales taxes will be charged on semen, embryos, and trucking fees (if listed), respective to the home province of the buyer, not the seller.

DISPUTES - In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final. PURCHASER'S RISK - Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

INSURANCE – Each animal becomes the risk of the purchaser at the time of sale and should be insured. Animals returning to the seller's farm must be insured.

US BUYERS – There is an additional charge (approximately \$300.00 US dollars) that will be applied to each animal purchased. This covers documentation, vet inspections/testing required to export. This cost does not include transportation or brokerage which is the responsibility of the buyer.

CATTLE PICTURES AND INFORMATION PROVIDED - The images in this catalogue are believed to be accurate representations of the individual animals and the information contained in this catalogue is provided by the seller and believed to be true and accurate. Transcon Livestock Corp. and catalogue designers/

producers assume no responsibility if the images and/or information as received have been altered or is inaccurate. ANNOUNCEMENTS – All announcements from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY - A registration/recordation certificate issued by the applicable breed association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

SHIPPING - Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

BREEDERS GUARANTEE - As per applicable Canadian Breed Association Breeding Guarantee guidelines. Copies are available at the sale settlement desk to be picked up by the buyer at any time. In no event shall the seller be responsible for reimbursing more than the purchase price. EXCEPTION TO GUARANTEE - In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

HEALTH - It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Transcon Livestock Corp. assumes no responsibility for the health status of any animal in the sale.

EMBRYO & SEMEN – Full settlement must be made before release is done and shipping arrangements should be done within 30 days of the sale unless arrangements made between buyer and seller prior to the sale. Shipping arrangements and costs are the expense of the purchaser once release has been given.

ACCIDENTS - Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property. RIGHTS AND OBLIGATIONS - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale. TRANSCON LIVESTOCK CORP. IS AGENT ONLY - It is to be clearly understood that Transcon Livestock Corp. is only acting as a medium between buyer and seller and is not in any way responsible for any failure on the part of either party to live up to his obligations. Neither does Transcon Livestock Corp. assume any financial obligations to collect or enforce collection of any monies between parties. Any legal action that may be taken, in exceptional cases, must be between buyer and seller.
